II. Audit Qualifications

a. Details of audit qualification

- Note 4(a) to the statement, in respect of preparation of financial statements of the Company on going concern basis for the reasons stated therein and expiry of timeline to complete the process of CDR/ SDR. During the year the Company has incurred a Net Loss of ₹1,99,109.30 lakhs resulting into accumulated losses of ₹4,17,624.30 lakhs and erosion of its Net worth as at March 31, 2018. The Company has obligations towards fund based borrowings aggregating to ₹7,75,772.77 lakhs and non-fund based exposure aggregating to ₹1,28,317.26 lakhs, operational creditors and statutory dues, subject to reconciliation/verification as stated in note 4(f), that have been demanded/recalled by the financial/operating creditors pursuant to ongoing Corporate Insolvency Resolution Process (CIRP). These conditions indicate the existence of a material uncertainty that may cast significant doubt on the Company's ability to continue as going concern and therefore the Company may be unable to realize its assets and discharge its liabilities in the normal course of business. The ultimate outcome of these matters is at present not ascertainable. Accordingly, we are unable to comment on the consequential impact, if any, on the accompanying standalone financial results.
- Note 4(b) to the statement in respect of recognition of deferred tax assets on account of carried forward unused tax losses and other taxable temporary differences aggregating to ₹95,705.88 lakhs. Based on unexecuted orders on hand, the Management of the Company is confident that sufficient future taxable income will be available against which such deferred tax assets will be realised. However, in our opinion, in absence of convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realized, such recognition is not in accordance with Indian Accounting Standard 12 "Income Taxes" (Ind AS 12). Had the aforesaid deferred tax assets not been recognised, loss after tax for the year ended on March 31, 2018 would have been higher by ₹95,705.88 lakhs and other equity would have been lower by ₹95,705.88 lakhs.
- Note 4(c) to the statement in connection with the existence of material uncertainties over the realisability of bank guarantees encashed by customers, unbilled revenue, trade receivables and withheld amount aggregating to ₹1,96,823.51 Lakhs included in financial and other assets which are past due/subject matters of various disputes /arbitration proceedings/ negotiations with the customers and contractors due to termination / foreclosure of contracts and other disputes. The management is yet to assess the change in risk of default and resultant expected credit loss allowance on such assets. Had the aforesaid assets been provided for impairment, loss after tax for the year ended on March 31, 2018 would have been higher by ₹1,96,823.51 Lakhs, other equity would have been lower by ₹1,96,823.51 Lakhs.
- Note 4(d) to the statement in respect of investment of ₹1,20,632.88 lakhs in subsidiaries engaged in BOT and other projects, which are under disputes with the concessionaire, and other subsidiaries that have significant accumulated losses as at

March 31, 2018. In absence of fair valuation of these Investments, we are unable to comment upon the carrying value of these investments and the consequential impact, if any, on the accompanying standalone financial results.

- 5 Note 4(e) to the statement in respect of loans and advances of ₹71,422.01 lakhs given to subsidiary Companies, associate, net receivable against development rights, various sub-contractors, vendors and other parties. These advances, having regard to financial position of such subsidiary companies and age of such advances, in our opinion, are doubtful of recovery. The management is yet to assess the change in risk of default and resultant expected credit loss allowance on such loans and advances. Had the aforesaid assets been provided for impairment, loss after tax for the year ended on March 31, 2018 would have been higher by ₹71,422.01 Lakhs, other equity would have been lower by ₹71,422.01 Lakhs.
- 6 Note 4(a) and 4(f) to the statement in respect of various claims, submitted by the financial creditors (including claims towards fund based and non-fund based exposure and claims on behalf of subsidiary companies and other parties) , operational creditors, workmen or employee and authorized representative of workmen and employees of the Company to Resolution Professional pursuant to the Insolvency and Bankruptcy Board of India (Insolvency Resolution Process for Corporate Persons) Regulation 2016, that are currently under consideration/reconciliation. Pending reconciliation/admission of such claims by the RP, we are unable to comment on the consequential impact, if any, on the accompanying statement;
- 7 Note 4(g) of the statement in respect of non-availability of confirmations of bank balances aggregating to ₹248.43 Lakhs, trade receivables including retention, advances, trade payable. In absence of alternative corroborative evidence, we unable to comment on the extent to which such balances are recoverable.
- 8 Note 4(h) of the statement in respect of non-availability of physical verification reports of fixed assets and inventories aggregating to ₹2,103.50 Lakhs as at March 31, 2018 and no provision for impairment has been made for the reasons stated therein. In absence of any alternative corroborative evidence, we are unable to comment on the recoverability of the same.
- 9 Note 4(i) of the statement in respect of balances available with statutory authorities and input credits aggregating to ₹20,034.67 Lakhs that are subject to reconciliation, filing of return and admission by the respective statutory authorities and no provision has been made thus, we are unable to comment whether any provision for impairment in the value of advances is required.

b. Type of Audit Qualification: Qualified Opinion

c. Frequency of qualification: Point 1, 2, 3, 4 & 5 are Repetitive and Point 6, 7, 8 & 9 have come for the first time.

d. For Audit Qualification(s) where the impact is quantified by the auditor, Management's Views:

- 1 In respect of qualification 2 above, the Management of the Company is confident that sufficient future taxable income will be available against which such deferred tax assets will be realized.
- 2 In respect of qualification 3 above, the management of the Company is confident of positive outcome of ligations/resolutions of disputes and recovering the aforesaid dues.
- 3 In respect of qualification 5 above, The management of the Company is at various stages of negotiation/communication/arbitration with respective contractee/clients/ sub-contractors/vendors to recover the dues and cost incurred by the Company and taking necessary steps to turnaround the loss making subsidiary Companies. Accordingly, no provision has been considered necessary by the management in respect of impairment in the value of loans and advances.

e. For Audit Qualification(s) where the impact is not quantified by the auditor:

i. Management's estimation on the impact of audit qualification: indeterminable

ii. If management is unable to estimate the impact, reasons for the same:

- 1 In respect of qualification 1 above, In the opinion of the management, resolution and revival of the company is possible in foreseeable future, accordingly, in view of ongoing CIRP, the financial results have been prepared on the basis that the Company is a Going Concern.
- 2 In respect of qualification 4 above, The management of the Company is at various stages of negotiation/communication/arbitration with respective contractee/clients of such subsidiaries engaged in BOT and other projects to recover the dues and cost incurred by the Company and taking necessary steps to turnaround the loss making subsidiary Companies. Considering the long-term nature of investments and in view of ongoing discussion, no provision has been considered necessary by the management in respect of impairment in the value of investment.
- 3 In respect of qualification 6 above, The claims received from all the parties are under further validation / verification by the RP.

- 4 In respect of qualification 7 above, The Management believes that no material adjustments would be required in books of account upon receipt of these confirmations.
- 5 In respect of qualification 8 above, The Management believe that no item of fixed assets and inventory has a net realizable value in the ordinary course of business which is less than the amount at which it is included in the fixed assets and inventories. Accordingly, no provision is required in respect of such fixed assets and inventories.
- 6 In respect of qualification 9 above, The recovery of these amounts is subject to reconciliation, filing of returns and admission by respective statutory authorities. No adjustments has been made in the books of accounts in respect of such amounts.

MANAGEMENT DISCUSSION & ANALYSIS

Industry Overview

India continues to receive global attention because of its economy, which is not only huge but also reasonably stable.

Now, while China is slowing down, India continues to march ahead as one of the fastest growing economies of the world. IMF predicts that it will crack eight percent GDP growth in 2021.

The IMF Economic Outlook has forecasted a growth rate of 7.4% in 2018 and 7.8 % in 2019. Our economy is “lifted by strong private consumption ...and implementation of the GST. Over the medium term growth is expected to rise with continuous implementation of structural reforms. We expect India to continue being one of the fastest growing big global economies in the world.

The Infrastructure Industry is a key sector in a developing economy. It gives very large employment running into crores of people and also has a multiplier effect on other economic sectors. In the last few years, the Infrastructure industry had slowed down due to a variety of reasons. The Government’s new initiatives have reversed the trend and sectors like Roads and Metro Railways are doing well. Large schemes have been announced for River transport upgradation and a Bullet Train is proposed between Mumbai and Ahmedabad with Japanese support.

The problems of the infrastructure which have been adequately written about and highlighted earlier have been addressed by the Central Government. New funding mechanisms under Smart City and NMCG have started being implemented. In the Roads BOOT as a method of awarding jobs has been stopped and new orders are based on the cash contract system / EPC system or Hybrid – Annuity.

The Central Governments AMRUT (Atal Bihari Mission for Rejuvenation and Urban Transformation) scheme to finance infrastructure in the areas of water, sewerage, roads, waste management and smart cities in most of the towns in India has started taking off in select states. In addition, the Smart Cities scheme has moved to tendering. The Government is also proposing some big- ticket investments in new areas like long-distance high-speed trains, metro train networks in cities and inland waterways development.

In our country, nearly 226 million people do not have access to safe drinking water and more than 100 million people live in places where water is severely polluted. About 54% of India faces high to extremely high water stress. When the annual per capita of renewable freshwater in a country or a region falls below 1700 cubic metre, it is held to be a situation of water stress. According to recent studies, per capita availability of water is likely to fall down to 1140 cum. in 2050 suggesting that we’re heading towards serious water crisis, if timely steps are not taken to tackle it. Once surface water is exhausted, people dig to find more water. Groundwater levels across 4,000 wells have receded by 54% in the last seven years.

Falling groundwater levels shows that water is moving further away from the surface and becoming less accessible.

Over the years, increasing population, growing industrialization, expanding agriculture and rising standards of living have pushed up the demand for water. Efforts have been made to collect water by building dams and reservoirs and creating ground water structures such as wells. Recycling and desalination of water are other options but the cost involved is very high.

With all this, it is expected that outlook in this sector will continue to improve in the next two or three years. Order Books of key players have started to burgeon.

VERTICAL-WISE PERFORMANCE

WATER

The water sector has seen a significant downturn in the last few years. The many projects required to make water available to all, have not yet been ordered. One instrument of change, the JNNURM scheme, which had created many water projects, finished in 2012. Under the new and more comprehensive AMRUT scheme many new Water and Sewage Treatment schemes are planned and tenders will be forthcoming in 2018-19. For the Ganga cleanup investments have started under the Namami Ganga scheme.

In the Water segment, your company has completed 25,000 km of pipeline installation, 1300 MLD of WTP and 100 MLD of Desalination Water Supply (the first and largest of its kind in India).

A selective list of projects completed in Water Sector during the year includes:

Value Rs. 249 Cr.

The government has unveiled a plan to provide water for all. Signs of water industry order revival are coming in from some of the recently elected state governments. The central government proposes to treat polluted water

(sewage) for cities on Ganga basin through schemes like Clean Ganga. AMRUT (Atal Mission for Rejuvenation and Urban Transformation) Scheme aims at doing the same for the other cities of India not on the Ganga or Yamuna basin. With these plans getting implemented, the sector will see better years.

Irrigation

The agriculture sector gives livelihood to 45% of our population but contributes only 16% to our GDP. One way to increase the incomes of the agrarian population is to convert poor precipitation rain-fed areas to one where an assured supply of water is available, through irrigation schemes.

Of the 140 million hectares (mh) of net cultivated area in India, only around 60mh are irrigated. For Indian agriculture to grow around 4% per year, it needs to increase the area irrigated, introduce new high-yield technology and expand cultivable land. Emphasis on aquifer mapping, watershed development, involvement of NGOs, and efficiency in developing irrigation capacity and all other measures using water more judiciously. This will require substantial investments in this sector to achieve these goals.

Your company has completed several large lift irrigation projects - 2300 km of Canals, 2.5 million cum/hr of pumping,

476.8 MW total pump capability and 104 km of tunnels (4-18 m dia.) as of March 2015.

A selective list of ongoing projects in the Irrigation sector include :

1. **Pranahita Chevella LIS Package - 20:** Pranahita-Chevella Lift Irrigation Scheme - Link-VII - Package No.20 - Investigation, Designs and execution of Lift Irrigation Scheme for drawing and lifting of 25.00 TMC of water from foreshore of SRSP Reservoir to Balancing Reservoir near Masani (V), Nizamabad Mandal & District by water conveyor system with all associated components such as approach channel, Gravity lined canal, lifts, pressure main, CM & CD works, distributory system and all other allied works. Value – Rs. 893 Cr.
2. **Pranahita Chevella LIS Package - 9:** Pranahita-Chevella Lift Irrigation Scheme - Link-III - Package No.9 - Investigation, Designs and execution of Lift Irrigation Scheme for drawal and lifting of 6.00 TMC of water in 120 days from Mid Manair Reservoir at Siricilla Village to Ypper Manair Reservoir at Narmal Village, Karimnagar District by water conveyor system. Formation of new reservoirs, Improvements and enhancement the capacities of existing tanks en route and their distributory system, Distributory network with lining for a new ayacut of 60000 Acres with minors and sub-minors and stabilization of 20,000 Acres under Upper Manair Reservoir. Value – Rs. 715 Cr.
3. **Sripada Sagar Project Stage – II, Phase – I :** Lifting of 12.00 TMC of water from Sripada Sagar Project to Madaram and to Gangadhara, Vemulavada, Potharam, Kodimyal, Bavusaipet tanks, which includes construction of pump houses, erection and supply of pipelines,

pumps, motors and allied electro-mechanical and hydro-mechanical works on engineering, procurement and construction (EPC) turnkey contract basis and Operation and Maintenance of the project for 2 years after successful testing and commissioning of the project. Canals 20.0 km; pipeline MS 3000mm dia to 1200mm dia-60kms; Tanks- 7nos pump houses- 2 nos. Value – Rs. 603 Cr.

4. **KNNL - Tubachi – LIS:** Package - 5 for Survey, Investigation, Design, Supply, Installation, Testing and Commissioning of Head works including all appurtenant structures, Pipe lines, motors with pumps and Electro mechanical works including providing power supply with 5 years Operation and maintenance under “Tubchi-Bableswar LIS” on Turnkey basis. (Including desilting of intake canal every year). Value – Rs. 522 Cr.
5. **Canal system of Indira Sagar Project main canal:** Execution of Canal system of Indira Sagar Project Main Canal from RD 155.000 Km to 206.000 Km including distribution network up to 40ha chalk for irrigation command area of about 20700 ha on turnkey basis. Main canal: 46.00kms; structures on main canal: 95 nos; tunnel-5.1km; Distributory system- 325 kms. – Value – Rs. 478 Cr.
6. **Yetinahole Package-5: Package-5:** construction of weir no 3, 4, 5 and lift head works - intermediate pumping station (dc-3)-Yetinahole. Value – Rs. 435 Cr.
7. **Thotapally Reservoir to Gouravelly Reservoir including Tunnel – Karimnagar:** Flood Flow Canal from SRSP Phase II - Investigation, Design & Execution of Lift irrigation Scheme from Thotapally Reservoir to Gouravelly Reservoir including Tunnel and other Allied works near Regonda (V), Husnabad (M) of Karimnagar District. Scope: approach canal excavation including lining-4 km; tunnel excavation & lining- 11.98 km – Value Rs. 360 Cr.
8. **Lower Goi Project:** Execution of Lower Goi Project including construction of Earthen Dam, composite dam. Value – Rs. 283 Cr.
9. **Kaleswaram Lift Irrigation Scheme:** Execution of Kaleswaram Lift Irrigation Scheme with allied works Lifting of 4.5 TMC of water - Value Rs. 250 Cr.

Several state Governments, having made ambitious plans for lift and canal projects, the irrigation sector shows good prospects. This sector should be a steady performer with business from central India, which is primarily catered to by rain-fed rivers having substantial sea run off.

BUILDINGS & INDUSTRIAL STRUCTURES

Rapid urbanization has emerged as an undeniable global trend which India too is now following. It demands today's city leaders to make tough decisions about infrastructure that will impact generations to come. With 410 million city dwellers, India has the world's second largest urban population. It is estimated that by 2030, about 600 million people will reside in cities in India and account for 70% of Indian GDP, according

to a McKinsey report. As more and more people migrate from rural to urban areas, the existing urban cities would soon be crunched on resources and infrastructure.

The central government has announced various mega schemes aimed at transforming urban India - 100 Smart Cities, the Atal Mission for Rejuvenation and Urban Transformation (AMRUT) for 500 cities, and Housing-for-All by 2022. These projects envision smart cities as part of a sustainable society in which people live, work and play in safety and comfort while also coexisting in harmony with the environment.

The last few years did not see any significant downturn as Buildings are a key requirement for economic growth. The market, however, has been very competitive. Demands on material availability have also become a major concern, for instance, sand is now very difficult to get.

Your company continued its trend and market presence. As of Mar 31, 2018, about 51.6 million sft have been constructed using 1.8 million cum of concrete, 30,600 MT of structural steel, and 3.43 lac mtrs of piling (500-1600 mm dia).

A selective list of major completed works in Buildings & Industrial Structures (B&I) during the year includes:

1. **Construction of National Institute of Securities Markets at Patalganga:** Construction of National Institute of Securities Markets at Patalganga, Maharashtra. Construction of 3 blocks of students Hostel, 1 block of MDP & Executive Hostel, 42 Nos. 7. **International Cricket Stadium - Vijayawada :** Construction of International cricket stadium including water supply, Sewage lines, Internal Electrification, internal roads etc. - Value Rs. 64 Cr.

With increasing needs for urbanization and all-round development, this sector will see sustained investment. The new building complexes will also be well integrated with climate control, recyclable building materials, CCTVs and smart controls.

POWER

Your company concentrates on Power Transmission Lines and Rural Electrification. The central government is planning to

award transmission projects worth Rs. 1 lakh crore in a year's time, thus giving a good push to the expanding electricity transmission across the country.

Your company has got 7 lac BPL connections provided, 11000 villages electrified, 1460 km of transmission line (132, 220, 400 & 765 KV) erected, and 60 track kms of traction and OHE works done as of March 31, 2018. These match the industry best.

A selective list of major ongoing works in Power during the year includes:

- CIDCO Kharghar Power Supply : Development of power supply infrastructure distribution network including construction of 33/11kV & 11/0.4kV HT Substations & allied electrical works in sector-25 to 45, Kharghar Node, Navi Mumbai (Phase-I) – Value – Rs. 109.70 Cr.

TRANSPORTATION

It is no secret that big economies poised for rapid growth need robust infrastructure, with roads forming a major part of it. India has the second highest road network in the world, spanning over 4.7 million km carrying over 60% of the country's total freight traffic and about 85% of the passenger traffic. However, only half of the country is paved, and less than a quarter of the national highways meet required standards. While road freight volume and the number of road vehicles have been growing at a compounded annual growth rate of 9.1% and 10.8% respectively, the growth rate of length of roads lags behind at 4%.

Indian rail network is the 4th longest and the most heavily

used system in the world. The present suburban railway services in India are limited and are operational only in the metros. The sector needs speedy investments which have not been forthcoming in the last ten years.

On the Transportation front, your company has completed 3402 lane km of Highways, 75 km of railway track, and 1963 lane km of highway concession projects under operation and development .

In the last three years the national Road building programs under NHAI has revived after resolving legacy problems. There is a fillip to Road building and completion is upwards of 25 km per day. EPC Cash contracts or the Hybrid Annuity Model (HAM) are now the chosen payment methods.

A selective list of completed works by the Transportation Division during the year includes:

- **TN-08:** Design, Construction, Development, Finance, Operation and Maintenance of Km 102/020 (Chengapalli) to 183/010 (Walayar) excluding Coimbatore Bypass on NH-47, in the State of Tamil Nadu on Design, Finance, Build, Operate and Transfer (DFBOT). Six laning from Km 102.035 to Km 144.74 and four laning from Km 170.94 to Km 183.06 . Project Value – Rs. 901 Cr.
- **Major bridge no: 161 (62x18.30M) Viramgam - Samkhiyali BG section for Western Railway:** Construction of Major bridge with PSC Girders on pile foundation including substructure, protection work and other related works etc., between stations Indiranagar and Surbarai in connection with Doubling of Viramgam - Samkhiyali BG section of Western Railway - Value – Rs. 89.26 Cr.

A selective list of ongoing projects in the Sector during the year includes:

- **Indore - Jhabua - Gujarat/MP BOT:** 4-laning of Indore - Jhabua - Gujarat/MP border section of NH 59 from KM 9.50 to KM 171.0 on BOT (Toll) basis under NHDP phase III in the State of Madhya Pradesh. Value – Rs. 1314 Cr.
- **Bijapur- Hubli National highway** - Widening to two lane with paved shoulder from Km 4.40 to 56.00 of NH-218 . Bijapur- Hubli Section under EPC mode in the State of Karnataka Value – Rs. 172.38 Cr
- Construction of Cement Concrete Road from Tadali Sakharwahi Ghuggus Road in KM 0/00 to 13/500 (Actual 0/00 to 12/00) Ta. & Distt. Chandpur (CRF) Rs. 37.15 Cr
- **CMC Karwar:** Execution of road and drain improvement works. Rs. 110 Cr.

The government has announced the National Highway Development Programme, aiming to upgrade 54,000 kilometres of highways. On the rail network front, the government aims to build 25,000 kilometres of new lines by 2020, as against about 2500 kilometres added between 2006 and 2014. Recent announcements by the government showing a quantum rise in transportation infrastructure do provide us good hope of the sector getting improved in the coming years.

MINING

The Mining industry in India is a major economic activity which contributes significantly to the economy of India. In recent years, it has been facing issues of large-scale displacements, resistance of locals, human rights issues like indentured labour and environmental issues like pollution, deforestation and dangers to animal habitats.

Your company has been treading carefully in the mining sector and has a sophisticated and prestigious project.

- **Malanjkhand Underground Project, Madhya Pradesh:**

The project aims to develop an underground mine and is planned to extract 5 Million TPA of copper ore in Malanjkhand, Balaghat, Madhya Pradesh. It involves sinking 4 vertical shafts to depths ranging from 665m to 695m, for lifting ore, carrying men & material and for ventilation. A total of 2 Declines at 1 in 7 gradients, reaching up to a depth of 660m have to be constructed.

The excavation of declines, drives, crosscuts, passes, raises etc. would go to a total length of 55.40 km. The project would use sophisticated mining machinery - two Friction Winders of capacity 4500 kW & one Service Winder of capacity 2300 kW for hoisting of 100 workers as a part of the job.

India has vast minerals potential with mining leases granted for longer durations of 20 to 30 years. The demand for various metals and minerals will grow substantially over the next 15 years. The power and cement industries also aid growth in the metals and mining sector. The economy growth of more than 7% in the years to come will provide a major thrust to the demand of minerals like coal and iron ore.

Transmission Line Tower (TLT), Nagpur

Your company's subsidiary M/s. IVRCL TLT Private Limited business at Butibori, Nagpur, Maharashtra manufactures and supplies Transmission Towers. With a manufacturing capacity area of 23 acres and an installed capacity of 36,000 MT per annum, it is a vital support for the EPC Transmission Line business. It is certified by International Standards Certifications Pty. Ltd (ISC) for Integrated Management System (IMS). Of late, the factory caters to other EPC players in the transmission sector as a quality vendor.

The business has done well as a standalone merchant producer and clocked 17600 t in 2017-18, a 50 % growth. All key blue chip EPC customers in the field are its customers.

IVRCL TECHNICAL SERVICES & SOLUTIONS

The industry customers are now trying to find newer ways for efficient and effective use of their assets constructed under EPC orders. As a policy, government customers are now combining capex (EPC) orders with O&M (Operations & Maintenance). The O&M could typically be for five years. This is being felt in all the company's business sectors of Water, Irrigation, Power, Transportation and Mining.

Your company has noticed this trend and entered into value added services, including O&M three years back. In the first phase, the O&M business will focus on the existing EPC lines of business, and leverage the company's pre-qualification and technical manpower talent.

India has a severe shortage of trained technical talent. This service division will provide gainful employment and meaningful work to thousands of qualified youngsters across the country. The company's training capabilities will be deployed to bring raw recruits quickly to the desired competence level. The first set of services relate to the Water sector.

The offerings of IVRCL Technical Services and Solutions include:

- Comprehensive O&M
- Retrofit & Revamp
- Analysis Reports
- Plant Performance Audits

Asset performance & efficiency in a cost-effective manner is instrumental in running a business profitably over time. Every aspect of Assets undertaken by IVRCL Technical Services and Solutions is handled by highly trained and seasoned industry professionals.

An outsourced O&M allows the customer to :

- Reduce operational cost and improve systems and processes
- Have access to a large team of experienced engineers and technicians spread across the country
- Increased Assets Turnover & life

Operation & Maintenance Projects

1. Comprehensive O&M of 270 MLD CWSS stage IV Phase I pumping stations at TK Halli, Harohalli and Tataguni including 220/66/6.6 KV substations at Harohalli and Tataguni for a period of 7 years – Rs.27.08 Crores

2. Comprehensive Operation, maintenance and monitoring contract for multi village Piped Water Supply Scheme, Mouzampur, Block-Barhara, District- Bhojpur including running of laboratory, providing adequate manpower, spare parts, chemicals of 60 months to ensure regular & potable water supply from the scheme to all the 39 villages benefited from the scheme- Rs.5.18 Crores
3. Operation & Maintenance of Sewage Treatment Plant (12 MLD) at Khajakunta Division No.122 in Kukatpally Division-14, West Zone, GHMC - Rs.0.52 Crores
4. Supply of contract workers for maintenance of singh nagar 40 MLD sewage treatment plant in Circle II area for the period of Oct 2016 to Mar 2017 for VMC - Rs.0.13 Crores

RISKS AND CONCERNS

In view of the current environment and the CDR/SDR packages and having been referred to the NCLT subsequently, IVRCL has enhanced its focus on risk management. Project execution overview has been significantly strengthened by adding more experienced and senior persons to the PMC (Project Monitoring Cell). Reviews are conducted regularly to understand the cost profile of the original bid and the effect of time on costs.

Risks are also faced in the new jobs which have to be bid for and the market is very price competitive. IVRCL has put in place much stronger cost review mechanisms for jobs to be bid and has increased the benchmark rate at which the job will be bid for.

The concerns for the company are the delay in sorting out the cases pending for extra claims, delays with some of the jobs relating to the land acquisition and environmental clearances, and very slow progress on arbitration. The concern is also that customers who delay from their side have no decision-making powers at the Executive levels to pass on the compensation for this.

The Resolution Professional has invited Expression of Interest from the prospective bidders for submission of Resolution Plans for revival of the Company. The future of the Company depends on the outcome of the Resolution plans submitted and approved by the Committee of Creditors.

INTERNAL CONTROL SYSTEMS AND ADEQUACY

IVRCL continues to maintain an effective system of internal control for facilitating accurate, reliable and speedy compilation of financial information, safeguarding the assets and interests of the company and ensuring compliance with all laws and regulations.

The company's internal control systems are commensurate with the nature of its business and the size and complexity of its operations, which provide, among other things, reasonable assurance of authorization, recording and reporting of the transactions of its operations in all material respects and of providing protection against significant misuse or loss of the assets of the company.

OPPORTUNITIES & THREATS

IVRCL has assiduously built an enviable list of pre-qualifications across several areas of competence in the EPC domain over the past two decades. The infrastructure sector with its low growth in the last few years has been in a conservation mode and has focused more on its survival and not so much on growth. The opportunities that will arise relate to fresh investments being proposed all over the country. All of these will ask for new technologies like new methods of sewage treatment, urban transportation and long-distance rail transport. It will also require new methods of project execution and techniques such as the use of prefabricated elements.

The much greater concern being there for the environment, opportunities would arise in remediation works such as treating lakes, dredging rivers and restoring water bodies. In urban solid waste management, there will be many opportunities to collect and segregate waste, process waste and generate energy from waste. With the rising pressure of population in cities and the shortage of public space, software and IT hardware with sensors will be used to improve public asset use such as in parking management, delivery of citizen services, traffic management and so on.

The threats that would prevail relate more to the individual company and its ability to handle the municipality and the Government customer expectations. At the outset, the financial and bidding capability norms could get tougher. The large opportunities and the active government interest combined together is likely to bring in global players to India and they would probably be allowed to use their foreign pre-qualifications. The customers would also expect timely execution and would not be considerate for time extensions. In general, these customers might also be reducing the planned execution time for various tenders.

The Government proposes to use new techniques like Swiss Challenge, which allows a company with new capabilities and technologies to offer a solution and this will enable new parties and competitors to enter the fray and set a benchmark.

Last but not the least, the market is expected to continue being price competitive. Design for frugal material usage, strong cost skills for procurement and good contracting skills are required to ensure the promised profits.

HUMAN RESOURCE MANAGEMENT

IVRCL has a proud record of people retention and its brand equity with the customers has risen because of this. The current focus of the company is to improve productivity at each project site and in each central function, to that effect; the manpower deployment has been carried out based on competency rating programmes, transfers, re-skilling and re-training. The more frequent and dynamic reviews are carried out to see the competence deployed in a given situation and when the human resource becomes surplus in a given project. As a result of this, the company has retained and kept the faith of a good number of long-serving employees, who are the vital connection to the customers.

FUTURE OUTLOOK

The recent passage of the IBC (Insolvency & Bankruptcy Code) has been a major change in the environment for the company.

State Bank of India filed an application before the Hon'ble National Company Law Tribunal (Hyderabad) for initiation of Corporate Insolvency Resolution Process ("CIRP") under Section 7 of the Insolvency and Bankruptcy Code, 2016 ("IBC") against the Company.

The NCLT Hyderabad Bench admitted the said application vide its order dated February 23, 2018 ordering the commencement of CIRP against the Company and thereby automatically suspending the powers of the existing Board of Directors of the Company as per Section 17 of the IBC and vesting with Mr. Sutanu Sinha, Resolution Professional. The CIRP period will be for 180 days initially from the date of the order which could be extend for a further period of 90 days.

The Resolution Professional has invited Expression of Interest from the prospective bidders for submission of Resolution Plans for revival of the Company. The future of the Company depends on the outcome of the Corporate Insolvency Resolution Process

The order book position of the Company stood at Rs 79,100 million as on March 31, 2018.

Revenue from operations:

The reduction in the turnover of the Company by 29.9% is primarily due to limited working capital deployment in projects. The Company is facing acute fund shortage, resulting in slow progress of projects.

Profitability:

During the year, margins in some of the projects have been revised downwards, which has adversely affected the gross margin.

The lenders of the Company exited from CDR during the year and have withdrawn all benefits including charge of concessional interest rates with effect from November, 2013. The higher finance cost is attributable to such reversal of lower interest charge with retrospective effect.

The Company is in continuous engagement with its clients to realize the claims filed with clients towards deviation in design, idle time charges etc. Claims to the extent of around Rs 35,000 million are already under arbitrations/disputed in courts. The claims would be accounted for as and when certainty as regards acceptance of claims are established.

Independent Auditors Report

To the Members of
IVRCL Limited

1. Corporate Insolvency Proceedings as per Insolvency and Bankruptcy Code, 2016 (IBC)

The Hon'ble National Company Law Tribunal, Hyderabad Bench ("NCLT") admitted an insolvency and bankruptcy petition filed by a financial creditor against IVRCL Limited ("the Company") and appointed Mr. Sutanu Sinha to act as Interim Resolution Professional (IRP) with direction to initiate appropriate action contemplated with extent provisions of the Insolvency and Bankruptcy Code, 2016 and other related rules.

2. Report on the Standalone Financial Statements

We have audited the accompanying Standalone Financial Statements of IVRCL Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2018, the Statement of Profit and Loss (including other comprehensive income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information for the year then ended in which are incorporated the unaudited branch returns for the year ended on that date of the Company's branch at Kingdom of Saudi Arabia ('the branch').

3. Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act, read with relevant Rules issued thereunder. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error. Pursuant to ongoing Corporate Insolvency Resolution Process (CIRP) powers of the board of Directors have been suspended and these Powers are now vested with Resolution Professional (RP).

4. Auditors' Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion on the standalone financial statements.

5. Basis for Qualified Opinion

We refer to following notes to standalone financial statements:

- a. Note 38 to the standalone financial statements, in respect of preparation of financial statements of the Company on going concern basis for the reasons stated therein and expiry of timeline to complete the process of CDR/ SDR. During the year the Company has incurred a Net Loss of ₹ 19,910.93 million resulting into accumulated losses of ₹ 41,762.43 million and erosion of its Net worth as at March 31, 2018. The Company has obligations towards fund based borrowings aggregating to ₹ 77,577.28 million and non-fund based exposure aggregating to ₹ 12,831.73 million, operational creditors and statutory dues, subject to reconciliation/verification as stated in Note 43, that have been demanded/recalled by the financial/operating creditors pursuant to

- ongoing Corporate Insolvency Resolution Process (CIRP). These conditions indicate the existence of a material uncertainty that may cast significant doubt on the Company's ability to continue as going concern and therefore the Company may be unable to realize its assets and discharge its liabilities in the normal course of business. The ultimate outcome of these matters is at present not ascertainable. Accordingly, we are unable to comment on the consequential impact, if any, on the accompanying standalone financial statements.
- b. Note 39 to the standalone financial statements, in respect of recognition of deferred tax assets on account of carried forward unused tax losses and other taxable temporary differences aggregating to ₹ 9,570.59 million. Based on unexecuted orders on hand, the Management of the Company is confident that sufficient future taxable income will be available against which such deferred tax assets will be realized. However, in our opinion, in absence of convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realized, such recognition is not in accordance with Indian Accounting Standard 12 "Income Taxes" (Ind AS 12). Had the aforesaid deferred tax assets not been recognised, loss after tax for the year ended on March 31, 2018 would have been higher by ₹ 9,570.59 million and other equity would have been lower by ₹ 9,570.59 million.
- c. Note 40 to the standalone financial statements, in connection with the existence of material uncertainties over the realisability of bank guarantees encashed by customers, unbilled revenue, trade receivables and withheld amount aggregating to ₹ 19,682.35 million included in financial and other assets which are past due/ subject matters of various disputes /arbitration proceedings/ negotiations with the customers and contractors due to termination / foreclosure of contracts and other disputes. The management is yet to assess the change in risk of default and resultant expected credit loss allowance on such assets. Had the aforesaid assets been provided for impairment, loss after tax for the year ended on March 31, 2018 would have been higher by ₹19,682.35 million, other equity would have been lower by ₹ 19,682.35 million.
- d. Note 41 to the standalone financial statements, in respect of investment of ₹ 12,063.29 million in subsidiaries engaged in BOT and other projects, which are under disputes with the concessionaire, and other subsidiaries that have significant accumulated losses as at March 31, 2018. In absence of fair valuation of these Investments, we are unable to comment upon the carrying value these investments and the consequential impact, if any, on the accompanying standalone financial statements.
- e. Note 42 to the standalone financial statements, in respect of loans and advances of ₹ 7,142.20 million given to subsidiary Companies, associate, net receivable against development rights, various sub-contractors, vendors and other parties. These advances, having regard to financial position of such subsidiary companies and age of such advances, in our opinion, are doubtful of recovery. The management is yet to assess the change in risk of default and resultant expected credit loss allowance on such loans and advances. Had the aforesaid assets been provided for impairment, loss after tax for the year ended on March 31, 2018 would have been higher by ₹ 7,142.20 million, other equity would have been lower by ₹ 7,142.20 million.
- f. Note 38 and 43 to the standalone financial statements, in respect of various claims, submitted by the financial creditors (including claims towards fund based and non-fund based exposure and claims on behalf of subsidiary companies and other parties) , operational creditors, workmen or employee and authorized representative of workmen and employees of the Company to Resolution Professional pursuant to the Insolvency and Bankruptcy Board of India (Insolvency Resolution Process for Corporate Persons) Regulation 2016, that are currently under consideration/reconciliation. Pending reconciliation/admission of such claims by the RP, we are unable to comment on the consequential impact, if any, on the accompanying statement;
- g. Note 44 to the standalone financial statements, in respect of non-availability of confirmations of bank balances aggregating to ₹ 24.84 million, trade receivables including retention, advances, trade payable. In absence of alternative corroborative evidence, we unable to comment on the extent to which such balances are recoverable.
- h. Note 45 to the standalone financial statements, in respect of non-availability of physical verification reports of fixed assets and inventories aggregating to ₹ 210.35 million as at March 31, 2018 and no provision for impairment has been made for the reasons stated therein. In absence of any alternative corroborative evidence, we are unable to comment on the recoverability of the same.
- i. Note 46 to the standalone financial statements, in respect of balances available with statutory authorities and input credits aggregating to ₹ 2,003.47 million that are subject to reconciliation, filing of return and admission by the respective statutory authorities and no provision has been

made thus, we are unable to comment whether any provision for impairment in the value of advances is required.

- j. Note 23 to the standalone financial statement, in respect of periods of default in repayment of borrowing and interest have not been provided to compliance the minimum presentation and disclosure requirement as per the schedule III of the Companies Act, 2013.

6. Qualified Opinion

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matters described in para 5(b), 5(c), 5(e) {i.e. Had our observation been considered the net loss for the period would have been ₹ 56,307.27 million, Net worth as at March 31, 2018 would have been ₹ (55,012.49) million and Earning per share for the period would have been ₹ (71.92)} and possible effects of matters described in para 5(a), 5(d), 5(f), 5(g), 5(h), 5(i) & 5(j) in the basis for qualified opinion, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2018, and its losses (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

7. Emphasis of matters

Attention is invited to:

- a. Note 47 to the standalone financial statements, in respect of notice received by the company U/s 276 (B) of the Income tax Act, 1961 and by certain banks and customers of the company U/s 226(3) of the Income Tax Act, 1961 regarding failure to deposit the tax deducted at source for the financial year 2016-17 and 2017-18 aggregating to ₹ 292.52 million.
- b. Note 48 to the standalone financial statements, in respect of summon received by the company of levy of damages U/s 14 B of the Employees' Provident Funds and Miscellaneous Provisions Act, 1952 aggregating to ₹ 61.27 million for the period from 10/1999 to 02/2009 and 07/2009 to 03/2015 and the matter is presently sub-judice.

8. Other Matters

- a. We did not audit the separate financial statements of 28 joint ventures included in standalone financial statements, whose financial results reflects company's share in net profit of joint venture aggregating to ₹ 20.59 million for the year ended March 31, 2018. Out of the 28 joint ventures, financial information/statements of 5 joint ventures, have been presented solely based on the information compiled by the management.

In our opinion and according to the information and explanations given to us by the Management, these financial statements /financials information, in aggregate, are not material to the Company and have not been subjected to audit hence, we are unable to comment on the consequential impact, if any, on the accompanying statements.

- b. “Annexure A” to the Independent Auditors’ Report

Referred to in paragraph 1 under the heading ‘Report on Other Legal & Regulatory Requirement’ of our report of even date to the standalone financial statements of the Company for the year ended March 31, 2018:

- i. (a) Subject to our comments in para i (b) below, the Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets;
- (b) Except for certain locations (including locations where physical access to the fixed assets is restricted by the contractee/clients), the fixed Assets were physically verified during the year by the Management in accordance with a regular program of verification. Further, wherever physical verification of fixed assets was performed, the management is in process of reconciliation of quantities as per verification reports with fixed assets records. Pending such reconciliation and physical verification of certain locations, we are unable to comment on the reasonableness of the physical verification program and discrepancies that may arise on such reconciliation and physical verification of fixed assets that are lying on those locations where physical verification could not be performed.
- (c) According to the information and explanation given to us, title deeds of the immovable properties have been mortgaged as security with lenders i.e. banks, financial institutions and others for security of the borrowings raised by the Company. On the basis of our examination of the records of the Company and the copies of the title deeds available with the Company, the title deeds of immovable properties are held in the name of the Company except for the details given in Appendix -1;
- ii According to the information and explanations given to us, Except for certain locations (including locations where physical access to the fixed assets is restricted by the contractee/clients), the management has conducted physical verification of inventory at reasonable intervals during the year. We are unable to comment on the discrepancies that may arise on the physical verification of inventories that are lying on those locations where physical verification could not be performed.
- iii The company has granted interest free unsecured loans to Companies covered in the register maintained under section 189 of the Act, in respect of such loans;
 - (a) In our opinion, the terms and conditions of the loans granted by the Company to 8 subsidiaries, aggregating to Rs. 6,113.32 million as at March 31,2018, having regard to the cost of funds to the company, are prejudicial to the interest of the company.
 - (b) In respect of one company the schedule of repayment of the principal amount aggregating to Rs. 537.60 million has been stipulated and the repayment commences in the year 2026-27. In case of interest free unsecured loan to 7 companies aggregating to Rs. 5,575.72 million, the schedule of repayment is not stipulated and considered by the Company as repayable on demand, hence, we are unable to comment as to whether repayments are regular.
 - (c) In case of interest free unsecured loan to one company aggregating to Rs. 537.60 million, no amount is overdue. In case of interest free unsecured loan to 7 companies aggregating to Rs. 5,575.72 million, the schedule of repayment is not stipulated and considered by the Company as repayable on demand, we are unable to comment whether any amount is overdue and whether reasonable steps have been taken by the company for recovery of the principal.
- iv According to information and explanation given to us and having regard to the legal opinion obtained by the company in an earlier year that the company being a company engaged in the business of providing infrastructure facilities in terms of Section 186, the company has complied with the provisions of section 185 and 186 of the Companies Act, 2013, in respect of grant of loans, making investments and providing guarantees and security as applicable.
- v According to the information and explanations given to us, the Company has not accepted any deposits during the year within the meaning of Sections 73 to 76 of the Companies Act, 2013, and the rules framed there under to the extent notified.
- vi We have broadly reviewed the cost records maintained by the Company pursuant to the Rules made by the Central Government under sub-section (1) of Section 148 of the Companies Act, 2013 and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. We have, however, not made a detailed examination of these records with a view to determining whether they are accurate or complete.
- vii (a) According to information and explanations given to us and records of the Company examined by us, the Company has not been regular in depositing undisputed statutory dues in respect of provident fund, employee’s state insurance, income-tax, sales tax, service tax, duty of excise, value added tax and cess and any other statutory dues with the appropriate authorities. There have been significant delays in a large number of cases in depositing these dues with the appropriate authorities. Further, no undisputed amounts payable in respect of these statutory dues were outstanding as on March 31,2018 for a period of

more than six months from the date they became payable except as given in Appendix -2 to this report.

- (b) According to the information and explanations given to us and records of the Company examined by us, particulars of dues outstanding in respect of income tax, sales tax, service tax, duty of excise and value added tax which have not been deposited on account of any dispute are given in Appendix-3 to this report.
- viii As matters described in Note 36 and 37 to the financial statement and pursuance of repayment schedule stipulated in the sanction letter, the entire amount of borrowing including interest are overdue and continuing default as on March 31, 2018, therefore, we are unable to provided periods of default. ANNEXURE “B” TO THE INDEPENDENT AUDITORS’ REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF IVRCL LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of IVRCL Limited (“the Company”) as of March 31, 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Basis for Qualified Opinion

In our opinion and according to the information and explanations given to us and based on our audit, the following material weaknesses have been identified as at March 31, 2018:

The Company did not have appropriate internal financial controls over (a) Assessment of recoverability of deferred tax assets (b) Assessment of expected credit loss/loss allowance of bank guarantees encashed by customers, unbilled revenue, trade receivables and withheld amounts which are subject matters of various disputes /arbitration proceedings/ negotiations with the customers and contractors due to termination / foreclosure of contracts and other disputes. (c) Assessment of expected cash shortfall and resultant loss allowance that may be required in respect of invocation of corporate guarantees and demand against the Company in respect of such guarantees extended / executed for its subsidiaries and other parties in favour of the lender (d) Assessment of impairment in value of long term equity

investment and assessment of impairment in value of loans and advances to various subsidiary companies and other parties. (e) Control over reconciliation of subcontractors work bills with the work bills submitted to the clients and physical progress of works completed, which could potentially result into inaccurate estimation of percentage of work completed and consequently delay in the realization of unbilled revenue/receivables. (f) Controls over projects costs estimation and review of balance costs to complete in respect of work projects, which could potentially result into inaccurate estimation of foreseeable losses on works contracts. (g) physical verification of fixed assets and inventories. Further the company did not have any internal audit system during the year.

The inadequate supervisory and review control over Company's process in respect of aforesaid assessment in accordance with the accounting principles generally accepted in India could potentially result in a material misstatement in preparation and presentation of financial statement including the profit/loss after tax.

A 'material weakness' is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

Qualified opinion

In our opinion, except for the possible effects of material weaknesses described in "basis of qualified opinion" paragraph above, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

We have considered the material weaknesses identified and reported above in determining the nature, timing, and extent of audit tests applied in our audit of the standalone financial statements of the Company for the year ended on March 31, 2018, and these material weaknesses have affected our opinion on the standalone financial statements of the Company and we have issued a qualified opinion on the standalone financial statements.

Notes to Standalone Financial Statements

All amounts are ₹ In Million unless otherwise stated

1. Company Overview

M/s. IVRCL Limited (the Company) having its registered office at M-22/3RT, Vijayanagar Colony, Hyderabad-500 057, Telangana India, is a public Company domiciled in India and is incorporated under the provisions of Companies Act applicable in India. The Company is in the business of development and execution of Engineering, Procurement, Construction and Commissioning (EPCC) and Lump Sum Turn Key (LSTK) facilities in various infrastructure projects such as water supply, Roads and Bridges, Townships and Industrial Structures, Power Transmission etc. for Central/State Governments, other local bodies and private sector. The corporate office of the Company is located at MIHIR, 8-2-350/5/A/24/1-B&2, Road no 2, Panchavati Colony, Banjara Hills, Hyderabad- 500 034, Telangana, India.

2. Recent accounting pronouncement

Appendix B to Ind AS 21, Foreign currency transactions and advance consideration:

On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 containing Appendix B to Ind AS 21, Foreign currency transactions and advance consideration which clarifies the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in a foreign currency.

The amendment will come into force from April 1, 2018. The Company has evaluated the effect of this on the financial statements and the impact is not material.

Ind AS 115- Revenue from Contract with Customers: On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Ind AS 115, Revenue from Contract with Customers. The core principle of the new standard is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers.

The standard permits two possible methods of transition: Full Retrospective approach - Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors. Modified Retrospective Approach- Under this approach there will be cumulative effect of initially applying the standard recognized at the date of initial application (Cumulative catch - up approach). The effective date for adoption of Ind AS 115 is financial periods beginning on or after April 1, 2018. The impact on adoption of Ind AS 115 is expected to be insignificant.

3. Significant Accounting policies

3.1 Basis of preparation

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended, and presentation requirements of Division II to Schedule III to the Act under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair value.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

3.2 Critical accounting judgements and key sources of estimation uncertainty

The preparation of the financial statements in conformity with the Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and disclosures as at date of the financial statements and the reported amounts of the revenues and expenses for the years presented. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Although these estimates are based upon managements best knowledge of current events, actual results may differ from these estimates under different assumptions and conditions.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical Judgements: In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the financial statements:

Discount rate used to determine the carrying amount of the Company's defined benefit obligation: In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

Contingences and commitments: In the normal course of business, contingent liabilities may arise from litigations and other claims against the Company. Where the potential liabilities have a low probability of crystallizing or are very difficult to quantify reliably, company treat them as contingent liabilities. Such liabilities are disclosed in the notes but are not provided for in the financial statements. Although there can be no assurance regarding the final outcome of the legal proceedings, company do not expect them to have a materially adverse impact on the financial position or profitability.

Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Income taxes: The Company's tax jurisdiction is India. Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions.

Useful lives of property, plant and equipment: As described in Note 3.8, the Company reviews the estimated useful lives and residual values of property, plant and equipment at the end of each reporting period. During the current financial year, the management determined that there were no changes to the useful lives and residual values of the property, plant and equipment.

Allowances for doubtful debts: The Company makes allowances for doubtful debts based on an assessment of the recoverability of trade and other receivables. The identification of doubtful debts requires use of judgement and estimates.

Contract estimates: The Company, being a part of construction industry, prepares budgets in respect of each project to compute project profitability. The two major components of contract estimate are 'claims arising during construction period' (described below) and 'budgeted costs to complete the contract'. While estimating these components various assumptions are considered by the management such as (i) Work will be executed in the manner expected so that the project is completed timely (ii) consumption norms will remain same (iii) Assets will operate at the same level of productivity as determined (iv) Wastage will not exceed the normal percentage as determined etc. (v) Estimates for contingencies (vi) There will be no change in design and the geological factors will be same as communicated and (vii) price escalations etc. Due to such complexities involved in the budgeting process, contract estimates are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Recoverability of claims: The Company has claims in respect of cost over-run arising due to client caused delays, suspension of projects, deviation in design and change in scope of work etc., which are at various stages of negotiation/ discussion with the clients or under arbitration. The realisability of these claims are estimated based on contractual terms, historical experience with similar claims, wherever necessary. Changes in facts of the case or the legal framework may impact realisability of these claims.

Deferred tax assets: In assessing the realisability of deferred income tax assets, management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the Company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

3.3 Operating Cycle and Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification in accordance with Part-I of Division- II of Schedule III of the Companies Act, 2013.

An asset is treated as current when it (a) Expected to be realised or intended to be sold or consumed in normal operating cycle; (b) Held primarily for the purpose of trading; or (c) Expected to be realised within twelve months after the reporting period, or (d) The asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. All other assets are classified as non-current.

A liability is current when (a) It is expected to be settled in normal operating cycle; or (b) It is held primarily for the purpose of trading; or (c) It is due to be settled within twelve months after the reporting period, or (d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, results in its settlement by the issue of equity instruments do not affect its classification. The Company classifies all other liabilities as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. Accordingly, operating cycle for the business activities of the Company covers the duration of the specific project/contract/project line/service including defect liability period, wherever applicable and extends up to the realization of receivables (including retention money) with agreed credit period normally applicable to the respective project.

3.4 Revenue recognition

Revenue is recognized to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment.

Construction Contracts: Revenue from construction contracts is recognized by reference to the stage of completion of the contract activity. The Company follows the percentage completion method, based on the stage of completion at the Balance Sheet date, taking into account the contractual price and revision thereto by estimating total revenue including claims/variations as per Ind AS 11, Construction Contracts, and total cost till completion of the contract and the profit so determined proportionate to the percentage of the actual work done.

Variations in contract work, claims and incentive payments are included to the extent that the amount can be measured reliably and its receipt is considered probable. The outcome of construction contract is considered as estimated reliably when all critical approvals necessary for commencement of the project has been obtained. When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognized to the extent of probable recovery of cost incurred. Contract cost are recognized as expense in the period in which they are incurred. When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognized as an expense immediately.

Supply Contracts-Sale of Goods

Revenue from the sale of goods is recognised when the goods are delivered and titles have passed, at which time all the following conditions are satisfied:

- the Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold ;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Company; and the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Interest income Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

Dividends Dividend income from investments is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

3.5 Joint Arrangements

Joint Arrangement is classified as either Joint Operation or Joint Venture. The classification depends on the contractual rights and obligations of each investor rather than legal structure of the Joint Arrangement and assessment of other facts and circumstances when the terms of contractual arrangement do not specify that parties have rights to the assets, and obligations for the liabilities, relating to the arrangement.

A joint operation is a joint arrangement whereby the parties that joint control of the arrangement have right to the assets and obligation for the liabilities relating to the joint arrangement. Joint control is the contractually agreed sharing of the control of the joint arrangement, which exist when decisions about the relevant activities require unanimous consent of the parties sharing control.

A joint venture is a joint arrangement whereby the contractual arrangement provides the parties to the arrangement with rights to the net assets of the arrangement (i.e. it is the separate vehicle, not the parties, that has rights to the assets, and obligations for the liabilities relating to the arrangement). When the Company participates in, but does not have joint control of, or does not have significant influence over, a joint arrangement/venture it accounts for its interest in a joint venture in accordance with IND AS 109 Financial Instruments.

3.6 Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker regularly monitor and reviews the operating results of the whole Company as one segment of "Engineering & Construction". Thus, as defined in Indian Accounting Standard 108 "Operating Segments",

the Company's entire business falls under this one operational segment and hence, the necessary information has already been disclosed in the Balance Sheet and Statement of Profit and Loss.

3.7 Foreign Currencies

Functional currency: The functional currency of the Company is the Indian rupee.

Transactions and translations: Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign-currency-denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

3.8 Property, plant and equipment

Property, plant and equipment (PPE) are initially recognised at cost. The initial cost of PPE comprises its purchase price, including non-refundable duties and taxes net of any trade discounts and rebates. The cost of PPE includes interest on borrowings (borrowing cost) directly attributable to acquisition, construction or production of qualifying assets subsequent to initial recognition, PPE are stated at cost less accumulated depreciation (other than freehold land, which are stated at cost) and impairment losses, if any.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and useful lives.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and capital work in progress) less their residual values over the useful lives, using the straight- line method ("SLM") in the manner prescribed in schedule II to the Act except for the following assets which are depreciated based on useful life determined by the Company:

Steel Shuttering	10 years
Wood Shuttering	3 years
Pucca Sheds	3 years

Land acquired for quarrying are amortized over the period of the respective project.

Management believes based on a technical evaluation (which is based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.) that the useful lives of the assets as considered by the Company reflect the periods over which these assets are expected to be used.

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The residual values, useful life and depreciation method are reviewed at each financial year-end to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on disposal or retirement of an item of property, plant and equipment is determined as the difference between sales proceeds and the carrying amount of the asset and is recognised in profit or loss. Fully depreciated assets still in use are retained in financial statements.

3.9 Capital work-in-progress and intangible assets under development

Capital work-in-progress/intangible assets under development are carried at cost, comprising direct cost, related incidental expenses and attributable borrowing cost.

3.10 Intangible assets

Intangible assets are measured on initial recognition at cost and subsequently are carried at cost less accumulated amortisation and accumulated impairment losses, if any.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses on derecognition are determined by comparing proceeds with carrying amount. These are included in profit or loss within other gains/(losses).

The Company amortizes intangible assets with a finite useful life using the straight-line method over the useful lives determined by the terms of the agreement /contract. The estimated useful life is reviewed annually by the management.

3.11 Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes) or both. Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured in accordance with the Ind AS16's requirement for cost model. An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no further economic benefits expected from disposal. Any gain or loss arising on derecognition of the property is included in profit or loss in the period in which the property is derecognised.

3.12 Investment in subsidiaries and joint ventures

Investments in subsidiaries and joint venture are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments, the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of Profit and Loss.

3.13 Income tax

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred taxes are recognised in Statement of Profit and Loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

Current tax: Current tax is measured at the amount of tax expected to be payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961. Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle the asset and the liability on a net basis.

Deferred tax: Deferred income tax is recognised using the Balance Sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred tax assets are recognised only to the extent it is probable that either future taxable profits or reversal of deferred tax liabilities will be available, against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised. The carrying amount of a deferred tax asset is reviewed at the end of each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

3.14 Leases

Leases are classified as finance leases whenever the terms of lease transfers substantially all the risks and rewards of ownership to the lessee. Leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases.

Operating Lease: Operating lease payments are recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term except where another systematic basis is more representative of the time pattern in which economic benefits from leased assets are consumed. The aggregate benefit of incentives (excluding in inflationary increases where rentals are structured solely to increase in line with the expected general inflation to compensate for the lessor's

inflationary cost increases, such increases are recognised in the year in which the benefits accrue) provided by the lessor is recognized as a reduction of rental expense over the lease term on a straight-line basis.

Finance Lease: Assets held under finance leases are initially recognized as assets of the Company at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the Balance Sheet as a finance lease obligation. Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, where shorter, the term of the relevant lease. Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognized immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policy on borrowing costs. Contingent rentals are recognized as expenses in the periods in which they are incurred.

3.15 Impairment of assets

Financial assets: The Company assesses on a forward-looking basis the expected credit losses associated with its financial assets. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

PPE and intangibles assets: Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash-generating unit (CGU) to which the asset belongs. If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the Statement of Profit and Loss.

3.16 Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

3.17 Provisions and Contingent Liabilities:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date.

If the effect of the time value of money is material, provisions are discounted to reflect its present value using a current pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

3.18 Inventories

The stock of construction material, stores and spares are valued at lower of cost on FIFO basis and net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes all charges in bringing the goods to their present location and condition, including octroi and other levies, transit insurance and receiving charges. Work-in-progress and finished goods include appropriate proportion of overheads and, where applicable, excise duty. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

3.19 Exceptional items

Items of income or expense from ordinary activities which are non-recurring and are of such size, nature or incidence that their separate disclosure is considered necessary to explain the performance of the Company are disclosed as Exceptional items in the Statement of Profit and Loss.

3.20 Non-derivative financial instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the

instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

a. Financial assets

Cash and cash equivalents: The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks, which are unrestricted for withdrawal and usage.

Trade Receivables and Loans: Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost, using the effective interest rate (EIR) method net of any expected credit losses. The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument.

Debt Instruments: Debt instruments are initially measured at amortised cost, fair value through other comprehensive income ('FVOCI') or fair value through profit or loss ('FVTPL') till derecognition on the basis of (i) the entity's business model for managing the financial assets and (ii) the contractual cash flow characteristics of the financial asset.

Equity Instruments: All investments in equity instruments classified under financial assets are initially measured at fair value, the Company may, on initial recognition, irrevocably elect to measure the same either at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis.

b. Financial assets – Subsequent measurement

Financial assets at amortised cost: Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income (FVTOCI): Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows that give rise on specified dates to solely payments of principal and interest on the principal amount outstanding and by selling financial assets.

Financial assets at fair value through profit or loss (FVTPL): Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in profit or loss.

c. Financial liabilities

Loans and borrowings: After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost on accrual basis.

Financial guarantee contracts: Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognized less cumulative amortization.

d. Financial liabilities - Subsequent measurement

Financial liabilities are measured at amortised cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, carrying amounts approximate the fair value due to the short maturity of these instruments.

e. Derecognition of financial instrument

The Company de-recognizes a financial assets when the contractual rights to the cash flows from the financial asset expires or it transfers the financial assets and the transfer qualifies for derecognition under Indian Accounting Standard 109 "Financial Instruments". A financial liability (or a part of financial liability) is de-recognised from the Company's balance sheet when the obligation specified in the contract is discharged or cancelled or expired.

f. Offsetting of financial instruments

Financial assets and financial liabilities are offsetted and the net amount is reported in financial statements if there is

a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

3.21 Borrowing costs

General and specific borrowing costs (including exchange differences arising from foreign currency borrowing to the extent that they are regarded as an adjustment to interest cost) that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are expensed in the period in which they are incurred.

3.22 Employee Benefits

Employee benefits consist of contribution to employees state insurance, provident fund, gratuity fund and compensated absences.

Defined Contribution plans

Contributions to defined contribution schemes such as employees' state insurance, labour welfare fund, employee pension scheme etc. are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees. Company's provident fund contribution is made to a government administered fund and charged as an expense to the Statement of Profit and Loss. The above benefits are classified as Defined Contribution Schemes as the Company has no further defined obligations beyond the monthly contributions.

Defined benefit plans:

The Company operates defined benefit plan in the form of gratuity. The liability or asset recognised in the balance sheet in respect of its defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method. The present value of the said obligation is determined by discounting the estimated future cash out flows, using market yields of government bonds that have tenure approximating the tenures of the related liability.

The interest expense are calculated by applying the discount rate to the net defined benefit liability or asset. The net interest expense on the net defined benefit liability or asset is recognised in the Statement of Profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the Statement of Changes in Equity and in the Balance Sheet. Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Compensated Absences

The employees are entitled to accumulate leave subject to certain limits, for future encashment and availment, as per the policy of the Company. The liability towards such unutilized leave as at the yearend is determined based on independent actuarial valuation and recognized in the Statement of Profit and Loss.

The classification of the company's net obligation into current and non-current is as per the actuarial valuation report.

3.23 Earnings per share (EPS)

Basic EPS is computed by dividing the profit or loss attributable to the equity shareholders of the Company by the weighted average number of Ordinary shares outstanding during the year. Diluted EPS is computed by adjusting the profit or loss attributable to the ordinary equity shareholders and the weighted average number of ordinary equity shares, for the effects of all dilutive potential Ordinary shares.

IV. Impact of pending legal cases

The company is party to several cases with contractee/clients as well as vendors/sub-contractors, pending before various forums /courts/ arbitration proceedings. Due to the initiation of CIRP against the company during the year, the moratorium has been declared inter-alia against any recovery proceedings/winding up proceedings against the Company as more fully described in Note 37 below.

The Company is also liable jointly and severally in respect of joint venture projects and liquidated damages in completion of projects.

B. Commitments

S. No.	Particulars	As at March 31, 2018	As at March 31, 2017
1	Estimated amounts of contracts to be executed on capital account (net of advance)	-	0.02

36. As more fully described in Note 37 below, as per section 134 of the Companies Act, 2013, the standalone financial statements of a Company are required to be authenticated by the Chairperson of the Board of Directors, where authorized by the Board or at least two Directors, of which one shall be the Managing Director or the CEO (being a Director), the CFO and the Company Secretary where they are appointed. In view of the ongoing CIRP, powers of the board of directors have been suspended and these powers are, in terms of the code, now vested with Mr. Sutanu Sinha, as Interim Resolution Professional (IRP) to carry out the functions of the Company in his capacity as the IRP from February 23, 2018. Accordingly, Financial statements of the Company for the year ended March 31, 2018 were taken on record and authorized for issue by Resolution Professional (RP) on June 29, 2018.

37. The Lenders of the Company had in earlier year approved a Corporate Debt Restructuring Scheme (CDR) with certain reliefs in relation to repayment timelines of loans and accumulated unpaid interest with certain conditions w.e.f. June 30, 2014. The efforts to raise additional funds, however, could not materialise and in the earlier year, the Joint Lenders have decided to adopt Strategic Debt Restructuring (SDR) in their meeting held on November 26, 2015, involving conversion of part of their debt into equity share capital to facilitate majority shareholding (i.e more than 51%) by the Joint Lenders Forum (JLF).

During the year, the stipulated time line has ended on May 25, 2017 and no Investor has come forward with a binding offer to acquire the lenders stake. The company has been treated as a case of failed CDR and SDR and lenders have exercised rights available to them on such failure of CDR/SDR including withdrawal / reversals of waivers / reliefs earlier granted to them w.e.f November 30, 2013.

During the year, a lender has filed a petition against the Company for initiation of CIRP that has been admitted by the Hon'ble National Company Law Tribunal, Hyderabad Bench ("NCLT") vide its order dated February 23, 2018 declaring moratorium inter-alia against any recovery proceedings/winding up proceedings against the Company. The order of moratorium shall have effect from February 23, 2018 in accordance with section 14 (1) of the Insolvency and bankruptcy Code, 2016 ("the Code").

Further, pursuant to the order of NCLT, a public announcement of CIRP was made on March 03, 2018 and a Committee of Creditors (COC) was formed pursuant to the provisions of the code and COC held their first meeting on March 29, 2018 and inter alia confirmed Interim Resolution Professional as Resolution professional (RP) for the Company. Hence, term loan including Working Capital Term Loan, Funded Interest Term Loan, Priority Debts etc has been classified as current borrowings as repayable on demand.

38. During the year, the Company has incurred a net loss of ₹ 19,910.93 Million resulting in to accumulated losses of ₹ 41,762.43 Million as at March 31, 2018 and erosion of its Net worth. The Company has obligations towards fund based borrowings aggregating to ₹ 77,577.28 Million and non fund based exposure aggregating to ₹ 12,831.73 Million, subject to reconciliation/verification as stated in Note 43 below, that have been demanded/recalled by the financial creditors pursuant to CIRP, obligations pertaining to operations including unpaid creditors and statutory dues as at March 31, 2018. The Company's ability to continue as going concern is dependent upon many factors including continued support from the financial creditors, operational creditors and submission of a viable revival plan by the prospective investor/bidder. In the opinion of the management, resolution and revival of the company is possible in foreseeable future, accordingly, in view of ongoing CIRP, above results have been prepared on the basis that the Company is a Going Concern.

39. The Company had recognized deferred tax assets on account of carried forward unused tax losses and other taxable temporary differences aggregating to ₹ 9,570.59 Million (₹ 9,570.59 Million as at March 31, 2017). Based on unexecuted orders on hand and expected future orders, the Management of the Company is confident that sufficient future taxable income will be available against which such deferred tax assets will be realised.

40. The Company has certain trade receivables, unbilled revenue, security deposit, withheld, claims of indirect taxes and other deposits including bank guarantee encashed by the customers aggregating to ₹ 19,682.35 Million (₹ 18,682.13 Million as at March 31, 2017) which are subject matters of various disputes / arbitration proceedings / negotiations with the contractee/ clients due to termination / fore closure of contracts and other disputes. The management of the Company is confident of positive outcome of litigations / resolutions of disputes and recovering the aforesaid dues.
41. The Company has an investment of ₹ 12,063.29 Million (₹ 6,761.85 Million as at March 31, 2017) in subsidiaries engaged in BOT and other projects, which are under disputes with the concessionaire, and other subsidiaries that have significant accumulated losses as at March 31, 2018. The management of the Company is at various stages of negotiation/ communication/arbitration with respective contractee/clients of such subsidiaries engaged in BOT and other projects to recover the dues and cost incurred by the Company and taking necessary steps to turnaround the loss making subsidiary Companies. Considering the long-term nature of investments and in view of ongoing discussion, no provision has been considered necessary by the management in respect of impairment in the value of investment.
42. The Company has outstanding loans and advances of ₹ 7,142.20 Million (₹ 4,322.33 Million as at March 31, 2017) given to subsidiary companies, associate, net receivable against development rights, various sub-contractors, vendors and other parties that are outstanding for long period. The management of the Company is at various stages of negotiation/ communication/arbitration with respective contractee/clients/ sub-contractors/vendors to recover the dues and cost incurred by the Company and taking necessary steps to turnaround the loss making subsidiary Companies. Accordingly, no provision has been considered necessary by the management in respect of impairment in the value of loans and advances.
43. Pursuant to the commencement of Corporate Insolvency Resolution Process of the Company (CIRP) under Insolvency and Bankruptcy Code, 2016 (IBC), there are various claims submitted by the operational creditors, the financial creditors, employee and other creditors against the Company including the claim on Company's subsidiaries. Some of these claims are under further verification/validation and the same may be updated as per any additional information which may be received in future.
44. Confirmation of balances could not be obtained as at March 31, 2018 for banks balances aggregating to ₹ 24.84 Million, bank borrowings and for various trade receivables, trade payables, though, the management has requested for the confirmation of balances. Management believes that no material adjustments would be required in books of account upon receipt of these confirmations.
45. Physical verification for fixed assets aggregating to ₹ 169.12 Million (WDV as on March 31, 2018) and inventory aggregating to ₹ 41.23 Million could not be carried out at certain locations including project site that are terminated/ foreclosed/ having slow progress. Management believe that no item of fixed assets and inventory has a net realizable value in the ordinary course of business which is less than the amount at which it is included in the fixed assets and inventories. Accordingly, no provision is required in respect of such fixed assets and inventories.
46. The company has various input credits and balances with various statutory authorities pertaining to service tax, VAT, sales tax etc aggregating to ₹ 2,003.47 Million. The recovery of these amounts is subject to reconciliation, filing of returns and admission by respective statutory authorities. No adjustments has been made in the books of accounts in respect of such amounts.
47. During the year, the company has received a Show Cause Notice U/s 279 (1) of the IT Act 1961 for initiation of prosecution proceedings U/s 276 (B) of the IT Act 1961 for failure to deposit the deducted Tax at Source within due date in Central Government Account for financial year 2016-17 & 2017-18 for the amount of ₹ 103.40 Million and ₹ 189.12 Million respectively.

In respect of the above, IT department has also sent notices U/s 226 (3) of the IT Act, 1961 to certain banks and customers of the company demanding the recovery of aforesaid arrears.

The Resolution Professional has communicated to the IT department about the ongoing CIRP and requested the IT department to withdraw the aforesaid notice and not to proceed with any further actions against the company in this regard.

48. During the year , the company has received order of the Regional Provident Fund Commissioner in the matter of levy of damages pertaining to the earlier years U/s 14 B of the Employees' Provident Funds and Miscellaneous Provisions Act, 1952 aggregating to ₹ 0.41 Million for the period from 10/1999 to 02/2009 and ₹ 60.86 Million for the period from 07/2009 to 03/2015.

In respect of the above, the Employees' Provident Fund Organisation has also sent notice U/s 8f of the Employees' Provident Funds and Miscellaneous Provisions Act, 1952 to a bank demanding the recovery of ₹ 91.22 Million (including interest of ₹ 29.95 Million).

The company has filed an appeal U/s 7-I of the Employees' Provident Funds and Miscellaneous Provisions Act, 1952 with Employees' Provident Fund Appellate Tribunal, Bangalore Bench regarding the damages amounting to ₹ 61.27 Million and the matter is presently sub-judice.

49. During the previous year, the management had expressed its intention to sell three BOT Projects for which definitive agreements for sale were signed with the buyer and accordingly, these projects had been classified as "Assets held for sales". Pursuant to the cancellation of the said agreements during the year these projects assets have been classified as Non-current Investment.
50. Other expenses for the year ended on March 31, 2018 includes provision for doubtful trade receivables aggregating to ₹ 1,221.20 Million (for the year ended March 31, 2017 is ₹ 2,978.28 Million).
51. Exceptional items represent interest/penal interest charged and benefits withdrawn by the lenders upto March 31, 2017 that were extended pursuant to CDR/SDR scheme from the cut off date (i.e. November 30, 2013).

53. Financial Instruments

53.1 Capital risk management

The Company manages its capital to ensure that the Company will be able to continue as going concern while maximising the return to stakeholders through optimisation of debt and equity balance. The Company is not subject to any externally imposed capital requirements.

The capital structure of the Company consists of net debt (borrowings as detailed in Notes 21, 23 & 25 and 14 & 15 offset by cash and bank balances) and total equity of the Company. Equity consists of equity capital, share premium and all other equity reserves attributable to the equity holders.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants.

53.2 Financial risk management

The Company's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance and support the Company's operations. The Company's principal financial assets comprise investments, cash and bank balance, trade and other receivables.

The Company is exposed to various financial risks such as market risk, credit risk and liquidity risk. The financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives.

a. Market risk

The Company's activities expose it primarily to the financial risk of changes in foreign currency exchange rates and changes in interest rates. There have been no changes to the Company's exposure to market risk or the manner in which it manages and measures the risk in recent past.

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: interest rate risk and currency risk. Financial instruments affected by market risk include borrowings and bank deposits.

i. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates is limited as the Company's borrowing bear fixed interest rate.

ii. Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's borrowings. The Company's foreign currency risks are identified, measured and managed at periodic intervals in accordance with the Company's policies. For details of un-hedged foreign currency refer Note 58.

b. Credit risk

Credit risk is the risk that counterparty will default on its contractual obligations resulting in financial loss to the company. The Company has adopted a policy of only dealing with creditworthy customers.

Credit risk on trade receivables and unbilled work-in-progress is limited as the customers of the Company mainly consists of the government promoted entities having a strong credit worthiness. For other customers, the Company uses a provision matrix to compute the expected credit loss allowance for trade receivables and unbilled work-in-progress. The provision matrix takes into account available external and internal credit risk factors such as credit ratings from credit rating agencies, financial condition, ageing of accounts receivable and the Company's historical experience for customers.

At March 31, 2018, the company did not consider there to be any significant concentration of credit risk, which had not been adequately provided for. The carrying amount of the financial assets recorded in the financial statements, grossed up for any allowances for losses, represents the maximum exposure to credit risk.

c. Liquidity risk

The Company manages liquidity risk by maintaining adequate reserves and banking facilities, by continuously monitoring forecast and actual cash flows and by matching the maturity profiles of financial assets and liabilities for the Company. The Company has established an appropriate liquidity risk management framework for its short-term, medium term and long-term funding requirement.

The table below summarizes the maturity profile of the Company's financial assets and financial liabilities based on contractual undiscounted payments:

Particulars	Less than 1year	1-5 years	> 5 years	Total
March 31, 2018				
Borrowings and interest thereon	77,577.28	-	-	77,577.28

Trade and other payables	14,240.65	-	-	14,240.65
Other financial liabilities	2,630.58	-	-	2,630.58

54. Fair Value measurements

The fair value of the financial assets are included at amounts at which the instruments could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair value:

- (a) Fair value of cash and short term deposits, trade and other short term receivables, trade payables, other current liabilities, approximate their carrying amounts largely due to the short-term maturities of these instruments.
- (b) Financial instruments with fixed and variable interest rates are evaluated by the Company based on parameters such

as interest rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken to account for the expected losses of these receivables.

Independent Auditors' Report

To the Members of
IVRCL Limited

1. Corporate Insolvency Proceedings as per Insolvency and Bankruptcy Code, 2016 (IBC)

The Hon'ble National Company Law Tribunal, Hyderabad Bench ("NCLT") admitted an insolvency and bankruptcy petition filed by a financial creditor against IVRCL Limited ("the Holding Company or the Company") and appointed Mr. Sutanu Sinha to act as Interim Resolution Professional (IRP) with direction to initiate appropriate action contemplated with extent provisions of Insolvency and Bankruptcy Code, 2016 and other related rules.

2. Report on the Consolidated Financial Statements

We have audited the accompanying Consolidated financial statements of **IVRCL LIMITED ("the Holding Company or the Company")**, and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the group"), its associates and joint arrangements which comprise the Consolidated Balance Sheet as at March 31, 2018, the Consolidated Statement of Profit and Loss (including Consolidated other comprehensive income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information for the year then ended in which are incorporated the unaudited branch returns for the year ended on that date of the Company's branch at Kingdom of Saudi Arabia ('the branch').

3. Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these Consolidated financial statements that give a true and fair view of the Consolidated financial position, Consolidated financial performance (including Consolidated other comprehensive income), Consolidated cash flows and Consolidated changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act, read with relevant Rules issued thereunder. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated financial statements

that give a true and fair view and are free from material misstatement, whether due to fraud or error. Pursuant to ongoing Corporate Insolvency Resolution Process (CIRP) powers of the board of Directors have been suspended and these powers are now vested with Resolution Professional (RP).

4. Auditors' Responsibility

Our responsibility is to express an opinion on these Consolidated financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of consolidated financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Group's preparation of the Consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Resolution Professional (RP), as well as evaluating the overall presentation of the Consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion on the Consolidated financial statements.

5. Basis for Qualified Opinion

5.1 We refer to:

- a. Note 45 to the consolidated financial statements, in respect of preparation of financial statements of the Company on going concern basis for the reasons stated therein and expiry of timeline to complete the process of CDR/ SDR. During the year, the Company has incurred a Net Loss of ₹ 19,910.93 million resulting into accumulated losses of ₹ 41,762.43 million and erosion of its Net worth as at March 31, 2018. The Company has obligations towards fund based borrowings

- aggregating to ₹ 77,577.28 million and non-fund based exposure aggregating to ₹ 12,831.73 million, operational creditors and statutory dues, subject to reconciliation/verification as stated in Note 49 to the consolidated financial statements, that have been demanded/recalled by the financial/operating creditors pursuant to ongoing Corporate Insolvency Resolution Process (CIRP). These conditions indicate the existence of a material uncertainty that may cast significant doubt on the Company's ability to continue as going concern and therefore the Company may be unable to realize its assets and discharge its liabilities in the normal course of business. The ultimate outcome of these matters is at present not ascertainable. Accordingly, we are unable to comment on the consequential impact, if any, on the accompanying consolidated financial statements.
- b. Note 46 to the consolidated financial statements, in respect of recognition of deferred tax assets on account of carried forward unused tax losses and other taxable temporary differences aggregating to ₹ 9,570.59 million. Based on unexecuted orders on hand, the Management of the Company is confident that sufficient future taxable income will be available against which such deferred tax assets will be realized. However, in our opinion, in absence of convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realized, such recognition is not in accordance with Indian Accounting Standard 12 "Income Taxes" (Ind AS 12). Had the aforesaid deferred tax assets not been recognised, loss after tax for the year ended on March 31, 2018 would have been higher by ₹ 9,570.59 million and other equity would have been lower by ₹ 9,570.59 million.
- c. Note 47 to the consolidated financial statements, in connection with the existence of material uncertainties over the realisability of bank guarantees encashed by customers, unbilled revenue, trade receivables and withheld amount aggregating to ₹ 19,682.35 million included in financial and other assets which are past due/subject matters of various disputes /arbitration proceedings/ negotiations with the customers and contractors due to termination / foreclosure of contracts and other disputes. The management is yet to assess the change in risk of default and resultant expected credit loss allowance on such assets. Had the aforesaid assets been provided for impairment, loss after tax for the year ended on March 31, 2018 would have been higher by ₹ 19,682.35 million, other equity would have been lower by ₹ 19,682.35 million.
- d. Note 48 to the consolidated financial statements, in respect of advances of ₹ 941.88 million given to associate, net receivable against development rights, various sub-contractors, vendors and other parties. These advances, having regard to age of such advances, in our opinion, are doubtful of recovery. The management is yet to assess the change in risk of default and resultant expected credit loss allowance on such advances. Had the aforesaid assets been provided for impairment, loss after tax for the year ended on March 31, 2018 would have been higher by ₹ 941.88 million, other equity would have been lower by ₹ 941.88 million.
- e. Note 44 and 49 to the consolidated financial statements, in respect of various claims, submitted by the financial creditors (including claims towards fund based and non-fund based exposure and claims on behalf of subsidiary companies and other parties) , operational creditors, workmen or employee and authorized representative of workmen and employees of the Company to Resolution Professional pursuant to the Insolvency and Bankruptcy Board of India (Insolvency Resolution Process for Corporate Persons) Regulation 2016, that are currently under consideration/reconciliation. Pending reconciliation/admission of such claims by the RP, we are unable to comment on the consequential impact, if any, on the accompanying statement;
- f. Note 50 to the consolidated financial statements, in respect of non-availability of confirmations of bank balances aggregating to ₹ 24.84 million, trade receivables including retention, advances, trade payable. In absence of alternative corroborative evidence, we are unable to comment on the extent to which such balances are recoverable.
- g. Note 51 to the consolidated financial statements, in respect of non-availability of physical verification reports of fixed assets and inventories aggregating to ₹ 210.35 million as at March 31, 2018 and no provision for impairment has been made for the reasons stated therein. In absence of any alternative corroborative evidence, we are unable to comment on the recoverability of the same.
- h. Note 52 to the consolidated financial statements, in respect of balances available with statutory authorities and input credits aggregating to ₹ 2,003.47 million that are subject to reconciliation, filing of return and admission by the respective statutory authorities and no provision has been made thus, we are unable to comment whether any provision for impairment in the value of advances is required.
- i. Note 27 to the consolidated financial statement, in respect of periods of default in repayment of

- borrowing and interest have not been provided to compliance the minimum presentation and disclosure requirement as per the schedule III of the Companies Act, 2013.
- 5.2 We refer to Note 58(a) (1) & (2) to the consolidated financial statements in respect of SPB Developers Private Limited, (a Subsidiary Company) wherein the other auditors had stated in their report:
- a. In respect of preparation of financial statements of the Company on Going Concern basis for the reasons stated therein. Further, the Company's current liabilities exceed its current assets. The facts/ matters as stated in Note 58 (a) (i) indicate that there exists material uncertainty that may cast significant doubt on the company's ability to continue as a Going Concern and therefore the Company may not be able to realize its assets and discharge its liabilities in the normal course of business. In the given circumstances, we are unable to comment on the consequential impact, if any, on the consolidated financial results.
 - b. In respect of capitalization of borrowing cost during the year amounting to ₹ 273.71 Million and accumulated ₹ 968.18 Million as at March 31, 2018 towards cost of the project for the reasons stated therein. There being no construction activities during the year, in our opinion, the capitalization of borrowing cost is not consistent with the Indian Accounting Standard-23, Borrowing Costs. Had the borrowing cost been accounted for pursuant to Indian Accounting Standard-23, Borrowing Costs, the intangible assets under development and Net worth during the year would have been lower by ₹ 968.18 Million each and loss for the year would have been higher to that extent.
- 5.3 We refer to Note 58(b) (1), (2), (3), (4), (5) & (6) to the consolidated financial statements in respect of IVRCL TLT Private Limited, (a Subsidiary Company) wherein the other auditors had stated in their report:
- a. In respect of non-availability of external confirmations in respect of trade receivables, advances recoverable and trade payables and no provision by the management for loss allowance/expected credit loss in this regard for the reason stated therein. We are unable to quantify the impact, if any, arising on receipt of the confirmations;
 - b. In respect of non-provision by the management for loss allowance in respect of claim of Value Added Tax Refund amounting to ₹ 32.98 Million pending for settlement since long for the reason stated therein. Had the loss allowance in respect of such claim been recognized, the profit after tax would have been lower by ₹ 32.98 Million and total assets and net worth would have been lower by ₹ 32.98 Million respectively.
- c. In respect of no adjustment in respect of non-moving trade stock of ₹ 18.21 Million held since long for the reason stated therein by the management. Had the loss allowance in respect of such stock been recognized, the profit after tax would have been lower by ₹ 18.21 Million and total assets and net worth would have been lower by ₹ 18.21 Million each.
 - d. In respect of regarding non- provision of loss allowance by the management in respect of trade receivable aggregating to ₹ 1.91 Million due from HDO Technologiess Limited (Fellow Subsidiary) respectively outstanding since long for the reason stated therein. Had the loss allowance in respect of such receivables been recognized, the profit after tax would have been lower by ₹ 1.91 Million and total assets and net worth would have been lower by ₹ 1.91 Million each.
 - e. In respect of preparation of financial statements of the Company on Going Concern basis for the reasons stated therein. The accumulated losses of the Company as at March 31, 2018 amounting to ₹ 179.38 Million have exceeded its net worth and the Company's current liabilities exceed current assets. These facts along with other matters set forth in Notes 5.3 (a), 5.3 (b), 5.3 (c), 5.3 (d) & 5.3 (f) indicate that there exist material uncertainty that may cast significant doubt on the company's ability to continue as a Going Concern and therefore the Company may be unable to realize its assets and discharge its liabilities in the normal course of business. In the given circumstances, we are unable to comment on the consequential impact, if any, on the consolidated financial statements.
 - f. In respect of corporate guarantee extended by the company in favor of security trustee of the CDR Lenders of the holding company. A lender of the Holding Company has filed insolvency and bankruptcy petition against the holding Company for initiation of insolvency resolution process that has been admitted by the Hon'ble Company Law 6hTribunal, Hyderabad ("NCLT") vide its order dated February 23, 2018. At present, the loss allowance in respect of this guarantee is indeterminable; accordingly, we are unable to comment on the consequential impact, if any, on the consolidated financial statements
- 5.4. We refer to Note 58 (f) (1) to the consolidated financial statements in respect of IVRCL Chengapalli Tollways Limited, (a Subsidiary Company) wherein the other auditors had stated in their report for the financial year ended March 31, 2018, Non-Accounting of Interest on

- debentures amounting to ₹ 137.49 million has resulted in understatement of loss for the year and understatement of current financial liabilities by the same amount.
- 5.5 We refer to Note 42 (d), 58 (h) (1), (2) & 65 to the consolidated financial statements in respect of Kumarapalayam Tollways Limited, (a Subsidiary Company) wherein the other auditors had stated in their report:
- The vacancy of office of whole time Key Managerial Personnel is not filled by the Board at a meeting of Board of directors within 6 month from the date of vacancy as per sub section 4 of section 203 of the Companies Act 2013 read with Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014.
 - The company had not provided the annual provision for year March 31, 2017 & March 31, 2018 total amounting of ₹ 207.50 million as per estimation by management. Due to this, the loss & current liability of the company is understated to the amount of ₹ 207.50 million.
 - The company had not provided the penalty amounting of ₹ 571.10 million for delay in laying of overlay as per clause 18.13 of concession agreement. Due to this the loss & current liability of the company is understated to the amount of ₹ 571.10 million.
- 5.6 We refer to Note 58 (i) to the consolidated financial statements in respect of Absorption Aircon Engineers Private Limited, (a step down Subsidiary Company) wherein the other auditors had stated in their report with respect to preparation of financial statements of the company on going concern basis for the reasons stated therein, where the management's assessment and assumption of revival of the ultimate holding company in the foreseeable future under the Corporate Insolvency Resolution Process, and to get financial support to the Company to continue its operations indicates, the existence of material uncertainty that may cast significant doubt on the Company's ability to continue as going concern.
- 5.7 We refer to Note 58 (j) to the consolidated financial statements in respect of IVR Prime Developers (Amalapuram) Private Limited, (a step down Subsidiary Company) wherein the other auditors had stated in their report with respect to preparation of financial statements of the company on going concern basis for the reasons stated therein, where the management's assessment and assumption of revival of the ultimate holding company in the foreseeable future under the Corporate Insolvency Resolution Process, and to get financial support to the Company to continue its operations indicates, the existence of material uncertainty that may cast significant doubt on the Company's ability to continue as going concern.
- 5.8 We refer to Note 58 (k) to the consolidated financial statements in respect of Bibinagar Developers Private Limited, (a step down Subsidiary Company) wherein the other auditors had stated in their report with respect to preparation of financial statements of the company on going concern basis for the reasons stated therein, where the management's assessment and assumption of revival of the ultimate holding company in the foreseeable future under the Corporate Insolvency Resolution Process, and to get financial support to the Company to continue its operations indicates, the existence of material uncertainty that may cast significant doubt on the Company's ability to continue as going concern.
- 5.9 We refer to Note 58 (l) to the consolidated financial statements in respect of IVR Prime Developers (Guntur) Private Limited, (a step down Subsidiary Company) wherein the other auditors had stated in their report with respect to preparation of financial statements of the company on going concern basis for the reasons stated therein, where the management's assessment and assumption of revival of the ultimate holding company in the foreseeable future under the Corporate Insolvency Resolution Process, and to get financial support to the Company to continue its operations indicates, the existence of material uncertainty that may cast significant doubt on the Company's ability to continue as going concern.
- 5.10 We refer to Note 58 (m) to the consolidated financial statements in respect of Samatterri Developers Private Limited, (a step down Subsidiary Company) wherein the other auditors had stated in their report with respect to preparation of financial statements of the company on going concern basis for the reasons stated therein, where the management's assessment and assumption of revival of the ultimate holding company in the foreseeable future under the Corporate Insolvency Resolution Process, and to get financial support to the Company to continue its operations indicates, the existence of material uncertainty that may cast significant doubt on the Company's ability to continue as going concern.
- 5.11 We refer to Note 42 (c) & Note 65 to the consolidated financial statements in respect of Jalandhar Amritsar Tollways Limited, (a Subsidiary Company) wherein the other auditors had stated in their report:
- The Company had not provided the penalty

amounting to ₹ 531.30 million for delay in laying of overlay as per clause 18.13 of concession agreement. Due to this the loss & current liability of the company is understated to the amount of ₹ 531.30 million.

- b. The Company had not provided the annual provision for year 31 March 2017 & 31 March 2018 total amounting of ₹ 239.60 million as per estimation by management. Due to this the loss & current liability of the company is understated to the amount of ₹ 239.60 million.
- 5.12 We refer to Note 69(b) to the Consolidated financial results in respect of consolidation of financial statements / financial information of 30 subsidiaries whose financial statements / financial information are not audited by their respective auditors and reflect net liabilities of ₹ 5,692.79 million as at March 31, 2018, total revenues of ₹ 2084.16 million and net cash outflows amounting to ₹ 4.21 million for the year ended on that date, as considered in the consolidated financial statements. These financial statements/financials information for the current financial year ended March 31, 2018, including the comparative figures and reconciliation of total equity, total comprehensive income, balance sheet, and profit & loss for the corresponding financial year ended on March 31, 2017 under IND AS, as reported in these consolidated financial statements have been presented solely based on the information compiled by the management. In our opinion and according to the information and explanations given to us by the Management, these financial statements /financials information, in aggregate, are material to the Group and have not been subjected to audit hence we are unable to comment on the consequential impact, if any, on the consolidated financial statements.

6. Qualified Opinion

11. Refer Note 70 to the consolidated financial statements in respect of non-consolidation of certain subsidiary and associate companies on account of non-availability of financial information.
- Our opinion is not qualified in respect of these matters.
- 8. Other Matters**
- a. We did not audit the financial statements / financial information of 33 subsidiaries whose financial statements / financial information reflect net assets of ₹ 13,258.32 million as at March 31, 2018, total revenues of ₹ 3,858.04 million and net cash outflows amounting to ₹ 39.80 million for the year ended on that date. This financial statements / financial information have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries is based solely on the reports of the other auditors.
- b. Refer Note 70(b) of the consolidated financial statements regarding non-availability of the

financial statement of certain associates as at March 31, 2018 and onwards. The investment of associates at ₹ 4,451.88 million in the Consolidated Financial Statements have not been adjusted in the consolidated financial statements in absence of their financial statement as at March 31, 2018 and onwards that may have been required had the financial statements were available.

- c. We did not audit the separate financial statements of 28 joint ventures included in consolidated financial statements, whose financial statement reflects holding company's share in net profit of joint venture aggregating to ₹ 20.59 million for the year ended March 31, 2018. Out of the 28 joint ventures, financial information/statements of 5 joint ventures, have been presented solely based on the information compiled by the management. In our opinion and according to the information and explanations given to us by the Management, these financial statements /financials information, in aggregate, are not material to the Company and have not been subjected to audit hence, we are unable to comment on the consequential impact, if any, on the accompanying statements.
- d. We did not audit the financial statements/information of a branch at Kingdom of Saudi Arabia included in the Consolidated financial statements of the company whose financial statements/financial information reflects total assets of ₹ 0.01 Million as at March 31, 2018 and total revenue is NIL for the year ended on that date as considered in consolidated financial statements.
- e. In respect of Note 58(q) of the Consolidated financial statement of IVRCL PSC Pipes Private Limited a subsidiary of the Company, whereby the other auditor has stated regarding the legal proceedings initiated by a creditor, Radiant Engineers, against the company for recovery of outstanding dues of ₹ 0.35 Million. The status of the legal proceedings at the time of audit was not known.

Our opinion on the consolidated financial statements, and our report on other legal and regulatory requirements below, is not qualified in respect of the above matters with respect to our reliance on the work done and the reports of other auditors and the financial statements.

9. Report on Other Legal and Regulatory Requirements

- 1. As required by section 143 (3) of the Act, based on our audit and on the consideration of the reports of the other auditors on separate financial statements and other financial information of the subsidiaries, associate, Jointly controlled entities

and Joint Venture we report, to the extent applicable, that:

- a. We have sought and except for the effects/possible effects of the matters described under "Basis for qualified opinion" paragraph, have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements;
- b. Except for the effects/possible effects of matters described in the "Basis for qualified opinion" paragraph, in our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors and unaudited accounts/returns adequate for the purpose of our audit have been received from the branches not visited by us.
- c. The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including consolidated other comprehensive income), the consolidated Cash Flow Statement and the consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
- d. In our opinion, except for the effects/possible effects of the matters described in the "Basis for qualified opinion" paragraph, the aforesaid Consolidated financial statements comply with the Indian Accounting Standards specified under section 133 of the Act.
- e. The matters described under "Basis for Qualified Opinion" and "Emphasis of Matters", in our opinion, may have an adverse effect on the functioning of the Group;
- f. In the term of section 17 (1) (b) of the Insolvency and Bankruptcy Code, 2016 ("the Code"), the powers of the board of directors have been suspended and be exercised by the interim resolution professional. Hence, written representation from directors have not been taken on record by the Board of Directors of the Holding Company. Accordingly, we are unable to comment whether none of the director is disqualified as on March 31, 2018 from being appointed as a director in the terms of Section 164 (2) of the Act. In case of the subsidiary companies, on the basis of the reports of the statutory auditors of its subsidiary companies none of the directors is disqualified as on March 31, 2018 from being appointed as a director in terms of Section 164 (2) of the Act.

- g. The qualification relating to the maintenance of accounts and other matters connected therewith are as stated in the Basis for Qualified Opinion paragraph;
 - h. With respect to the adequacy of the internal financial controls over financial reporting of the Group and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses a qualified opinion on the adequacy and operating effectiveness of the Group's internal financial control over financial reporting.
 - i. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements and except for the effects/possible effects of matter described in para 5 "basis of qualified opinion";
- i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group, its associates and joint ventures (Refer note 42);
 - ii. Provision has been made in the consolidated financial statements as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts and derivative contracts;
 - iii. There has not been any delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Group during the year ended March 31, 2018.

Annexure “A” to the Independent Auditors’ Report of even date on the Consolidated Financial Statements of IVRCL Limited

1. Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated financial statements of IVRCL LIMITED (“the Holding Company or the Company”), and its subsidiaries (the Holding Company and its subsidiaries together referred to as “the group”) as at and for the year ended March 31, 2018, we have audited the internal financial controls over financial reporting of IVRCL Limited (hereinafter referred to as “the Holding Company”) and its subsidiary companies, which are companies incorporated in India, as of that date.

2. Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding company and its subsidiary companies, which are companies incorporated in India, is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

3. Auditors’ Responsibility

Our responsibility is to express an opinion on the Group’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal

financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our qualified opinion on the IFC of the Holding Company and its subsidiary companies as aforesaid.

4. Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

5. Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

6. Basis for Qualified Opinion

In our opinion and according to the information and explanations given to us and based on our audit, the following material weaknesses have been identified as at March 31, 2018:

- a. The Holding Company did not have appropriate internal financial controls over (a) Assessment of recoverability of deferred tax assets (b) Assessment of expected credit loss/loss allowance of bank guarantees encashed by customers, unbilled revenue, trade receivables and withheld amounts which are subject matters of various disputes /arbitration proceedings/ negotiations with the customers and contractors due to termination / foreclosure of contracts and other disputes. (c) Assessment of expected cash shortfall and resultant loss allowance that may be required in respect of invocation of corporate guarantees and demand against the Company in respect of such guarantees extended / executed for its subsidiaries and other parties in favour of the lenders. (d) Assessment of impairment in value of long term equity investment and assessment of impairment in value of loans and advances to various subsidiary companies and other parties. (e) Control over reconciliation of subcontractors work bills with the work bills submitted to the clients and physical progress of works completed, which could potentially result into inaccurate estimation of percentage of work completed and consequently delay in the realization of unbilled revenue/ receivables. (f) Controls over projects costs estimation and review of balance costs to complete in respect of work projects, which could potentially result into inaccurate estimation of foreseeable losses on works contracts. (g) physical verification of fixed assets and inventories. Further the company did not have any internal audit system during the year.
- b. The Holding Company has consolidated financial statements / financial information of 30 subsidiary companies, which are companies incorporated in India, which has been included in the consolidated financial statements based on unaudited financial statements/financial information. Hence, we are unable to comment on the adequacy and operating effectiveness of the internal financial controls over financial reporting related to the consolidation of the said entities and consequently the items of revenues, expenses, assets, liabilities and net cash flows from the said subsidiary companies which are companies incorporated in the consolidated financial statements of the Holding company have not been audited and therefore not reported by us. The inadequate supervisory and review control over Company's process in respect of its aforesaid assessment in accordance with the accounting principles generally accepted in India could potentially result in a material misstatement in preparation and presentation of consolidated financial statement including the profit/loss after tax. Refer appendix -1
- c. In respect of SPB Developers Private Limited (a Subsidiary Company), the other auditors have stated in their report for the financial year ended March 31, 2018 that the Company did have material weakness of internal financial controls system over financial reporting in respect of capitalization of borrowing cost towards cost of the project having no construction activity during the year and assessment of loss allowance on capital advances. The inadequate internal controls over financial reporting in respect of aforesaid matters have effect on the reported loss for the year.
- d. In respect of IVRCL TLT Private Limited (a Subsidiary Company), the other auditors have stated in their report for the financial year ended March 31, 2018 that the Company did have material weakness in the following areas of internal financial controls system over financial reporting over (a) Assessment of recoverability of Value Added Tax refund from the concerned authorities; (b) Assessment of loss allowance/ expected credit loss on old trade receivables and (c) Assessment of net realizable value of non-moving trade stock. The inadequate internal controls over financial reporting in respect of aforesaid matters have effect on the reported profit for the year.
- e. In respect of Absorption Aircon Engineers Private Limited (a Step down Subsidiary Company), the other auditors have stated in their report for the financial year ended March 31, 2018 that the Company did not have sufficient and appropriate internal financials controls over assessment of its ability to continue as going concern in view of corporate guarantee provided to Corporate Debt Restructuring lenders of Ultimate holding Company.
- f. In respect of IVR Prime Developers (Amalapuram) Private Limited (a Step down Subsidiary Company), the other auditors have stated in their report for the financial year ended March 31, 2018 that the Company did not have sufficient and appropriate internal financials controls over assessment of its ability to continue as going concern in view of corporate guarantee provided to Corporate Debt Restructuring lenders of Ultimate holding Company.
- g. In respect of Bibinagar Developers Private

Limited (a Step down Subsidiary Company), the other auditors have stated in their report for the financial year ended March 31, 2018 that the Company did not have sufficient and appropriate internal financials controls over assessment of its ability to continue as going concern in view of corporate guarantee provided to Corporate Debt Restructuring lenders of Ultimate holding Company.

- h. In respect of IVR Prime Developers (Guntur) Private Limited (a Step down Subsidiary Company), the other auditors have stated in their report for the financial year ended March 31, 2018 that the Company did not have sufficient and appropriate internal financials controls over assessment of its ability to continue as going concern in view of corporate guarantee provided to Corporate Debt Restructuring lenders of Ultimate holding Company.
- i. In respect of Samatteri Developers Private Limited (a Step down Subsidiary Company), the other auditors have stated in their report for the financial year ended March 31, 2018 that the Company did not have sufficient and appropriate internal financials controls over assessment of its ability to continue as going concern in view of corporate guarantee provided to Corporate Debt Restructuring lenders of Ultimate holding Company.

A 'material weakness' is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

7. Qualified opinion

In our opinion, except for the possible effects of material weaknesses described in "basis of qualified opinion" paragraph above, the group has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

We have considered the material weaknesses identified and reported above in determining the nature, timing, and extent of audit tests applied in our audit of the March 31, 2018 Consolidated financial statements of the Company, and these material weaknesses have affected our opinion on the Consolidated financial statements of the Company and we have issued a qualified opinion on the Consolidated financial statements.

8. Other matters

- a. Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it related to 33 subsidiary companies, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.
- b. The consolidated financial statements of the Company for the year do not include Company's share of profit/loss in respect of three associate Companies in which the Company has investment amounting to ₹ 4,451.88 million as at March 31, 2018. We are unable to comment on the same on our reporting under section 143(3)(e) of the Act in the case of these consolidated financial statements.

1. Company Overview

M/s. IVRCL Limited (the Company) having its registered office at M-22/3RT, Vijayanagar Colony, Hyderabad-500 057, Telangana India, is a public Company domiciled in India and is incorporated under the provisions of Companies Act applicable in India. The Company, its subsidiaries (referred to as the “Group”), associates and joint-ventures is in the business of development and execution of Engineering, Procurement, Construction and Commissioning (EPCC) and Lump Sum Turn Key (LSTK) facilities in various infrastructure projects such as water supply, Roads and Bridges, Townships and Industrial Structures, Power Transmission etc. for Central/ State Governments, other local bodies and private sector. The group has manufacturing facilities at Vatva, Ahmedabad, Gujarat & Nagpur, Maharashtra. The corporate office of the Company is located at MIHIR, 8-2-350/5/A/24/1-B&2, Road no 2, Panchvati Colony, Banjara Hills, Hyderabad- 500 034, Telangana, India.

2. Recent accounting pronouncement

Appendix B to Ind AS 21, Foreign currency transactions and advance consideration:

On March 28, 2018, Ministry of Corporate Affairs (“MCA”) has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 containing Appendix B to Ind AS 21, Foreign currency transactions and advance consideration which clarifies the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in a foreign currency.

The amendment will come into force from April 1, 2018. The Group has evaluated the effect of this on the consolidated financial statements and the impact is not material.

Ind AS 115- Revenue from Contract with Customers: On March 28, 2018, Ministry of Corporate Affairs (“MCA”) has notified the Ind AS 115, Revenue from Contract with Customers. The core principle of the new standard is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity’s contracts with customers.

The standard permits two possible methods of transition: Full Retrospective approach - Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors. Modified Retrospective Approach- Under this approach there will be cumulative effect of initially applying the standard recognized at the date of initial application (Cumulative catch - up approach). The effective date for adoption of Ind AS 115 is financial periods beginning on or after April 1, 2018. The impact on adoption of Ind AS 115 is expected to be insignificant.

3. Significant Accounting policies

3.1 Basis of preparation

These Consolidated financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (‘the Act’) read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, and presentation requirements of Division II to Schedule III to the Act under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair value.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

3.2 Basis of Consolidation

These consolidated financial statements incorporate the financial statements of the Holding Company and entities controlled by the Holding Company and its subsidiaries. Control is achieved when the Holding Company; has power over the investee, is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to use its power to affect its returns.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Profit or loss and each component of other comprehensive income are attributed to the shareholders of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the shareholders of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group’s accounting policies. All intragroup assets and liabilities, equity, income, expenses, and cash flows relating to transactions between members of the Group are eliminated in full on consolidation. The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

3.3 Principles of Consolidation

- a) Subsidiary companies are consolidated on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after fully eliminating intra-group balances, intra-group transactions and resulting unrealized profits or losses on intra-group transactions as per Indian Accounting Standard (Ind AS) 110.
- b) Associates are entities over which the Group has significant influence but not control. Investments in associates are accounted for using the equity method of accounting. The investment is initially recognized at cost, and the carrying amount is increased or decreased to recognize the investor's share of the profit or loss of the investee after the acquisition date. The Group's investment in associates includes goodwill identified on acquisition.
- c) Investments in Joint Venture are accounted for using the equity method of accounting. The investment is initially recognized at cost, and the carrying amount is increased or decreased to recognize the investor's share of the profit or loss of the investee after the acquisition date. The Group's investment in joint venture includes goodwill identified on acquisition.
- d) The financial statements of the Subsidiaries, Joint ventures and the Associates used in the consolidation are drawn up to the same reporting date as that of the Holding Company, i.e. March 31, 2018.
- e) The excess of cost to the Group, of its investment in the subsidiaries over the Group's share of equity is recognised in the consolidated financial statements as Goodwill and tested for impairment annually.
- f) The consolidated financial statements are prepared to the extent possible using uniform accounting policies for like transactions and other events in similar circumstances and are presented to extent possible, in the same manner as the Company's separate financial statements. The Subsidiaries and Associate Companies considered for consolidated financial statements are given in Note 73.

3.4 Critical accounting judgements and key sources of estimation uncertainty

The preparation of the Consolidated financial statements in conformity with the Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and disclosures as at date of the Consolidated financial statements and the reported amounts of the revenues and expenses for the years presented. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Although these estimates are based upon managements best knowledge of current events, actual results may differ from these estimates under different assumptions and conditions.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical Judgements: In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the financial statements:

Discount rate used to determine the carrying amount of the Company's defined benefit obligation: In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

Contingences and commitments: In the normal course of business, contingent liabilities may arise from litigations and other claims against the Group. Where the potential liabilities have a low probability of crystallizing or are very difficult to quantify reliably, Group treat them as contingent liabilities. Such liabilities are disclosed in the notes but are not provided for in the financial statements. Although there can be no assurance regarding the final outcome of the legal proceedings, company do not expect them to have a materially adverse impact on the financial position or profitability.

Key sources of estimation uncertainty: The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Income taxes: The Group's tax jurisdiction is mainly in India. Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions.

Useful lives of property, plant and equipment: As described in Note 3.11, the Group reviews the estimated useful lives and residual values of property, plant and equipment at the end of each reporting period. During the current financial year, the management determined that there were no changes to the useful lives and residual values of the property, plant and equipment.

Allowances for doubtful debts: The Group makes allowances for doubtful debts based on an assessment of the recoverability of trade and other receivables. The identification of doubtful debts requires use of judgement and estimates.

Contract estimates: The Group, being a part of construction industry, prepares budgets in respect of each project to compute project profitability. The two major components of contract estimate are 'claims arising during construction period' (described below) and 'budgeted costs to complete the contract'. While estimating these components various assumptions are considered by the management such as (i) Work will be executed in the manner expected so that the project is completed timely (ii) consumption norms will remain same (iii) Assets will operate at the same level of productivity as determined (iv) Wastage will not exceed the normal percentage as determined etc. (v) Estimates for contingencies (vi) There will be no change in design and the geological factors will be same as communicated and (vii) price escalations etc. Due to such complexities involved in the budgeting process, contract estimates are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Recoverability of claims: The Group has claims in respect of cost over-run arising due to client caused delays, suspension of projects, deviation in design and change in scope of work etc., which are at various stages of negotiation/ discussion with the clients or under arbitration. The realisability of these claims are estimated based on contractual terms, historical experience with similar claims, wherever necessary. Changes in facts of the case or the legal framework may impact realisability of these claims.

Deferred tax assets: In assessing the realisability of deferred income tax assets, management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the Company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

3.5 Operating Cycle and Current versus non-current classification

The Group presents assets and liabilities in the balance sheet based on current/ non-current classification in accordance with Part-I of Division- II of Schedule III of the Companies Act, 2013.

An asset is treated as current when (a) It is expected to be realised or intended to be sold or consumed in normal operating cycle; (b) It is held primarily for the purpose of trading; or (c) It is expected to be realised within twelve months after the reporting period, or (d) The asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. All other assets are classified as non-current.

A liability is current when (a) It is expected to be settled in normal operating cycle; or (b) It is held primarily for the purpose of trading; or (c) It is due to be settled within twelve months after the reporting period, or (d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, results in its settlement by the issue of equity instruments do not affect its classification. The Group classifies all other liabilities as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. Accordingly, operating cycle for the business activities of the Group covers the duration of the specific project/contract/project line/service including defect liability period, wherever applicable and extends up to the realization of receivables (including retention money) with agreed credit period normally applicable to the respective project.

3.6 Revenue recognition

Revenue is recognized to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment.

Construction Contracts: Revenue from construction contracts is recognized by reference to the stage of completion of the contract activity. The Company follows the percentage completion method, based on the stage of completion at the Balance Sheet date, taking into account the contractual price and revision thereto by estimating total revenue including claims/variations as per Ind AS 11, Construction Contracts, and total cost till completion of the contract and the profit so determined proportionate to the percentage of the actual work done.

Variations in contract work, claims and incentive payments are included to the extent that the amount can be measured reliably and its receipt is considered probable. The outcome of construction contract is considered as estimated reliably when all critical approvals necessary for commencement of the project has been obtained. When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognized to the extent of probable recovery of cost incurred. Contract cost are recognized as expense in the period in which they are incurred. When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognized as an expense immediately.

Supply Contracts-Sale of Goods: Revenue from supply contract is recognized when the substantial risk and rewards of ownership is transferred to the buyer, which is generally on dispatch, and the collectability is reasonably measured. Revenue from product sales are shown as net of all applicable taxes and discounts.

Interest income: Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

Dividends: Dividend income from investments is recognised when the right to receive the payment is established, which is generally when shareholders approve the dividend.

Service Concession Arrangements: The Group recognizes and measures revenue in accordance with Appendix A, Service Concession Arrangement of Indian Accounting Standard (IND AS) 11 'Construction Contracts'

The Group follows intangible asset model for revenue recognition where the operator is paid by the users or where the concession grantor has not provided a contractual guarantee in respect of the recoverable amount. The intangible asset corresponds to the right granted by the concession grantor to the operator to charge users of the public service. The Group recognises an intangible asset to the extent it has an unconditional contractual right to receive the revenue from toll collections from the users of the public service developed by the group.

Income from other operation and maintenance contracts is recognised on the basis of utilisation of the facility by the clients and is based on the agreements entered into with the clients.

Toll Revenue: Fee collection from the users of the facility is accounted for as and when the amount is due and recovery is certain. Revenue from sale of passes to local traffic is accounted for as and when such passes are sold.

Revenue from Real Estate Projects : Revenue from the sale of properties is recognised on transfer of all significant risks and rewards of ownership to the buyers, which coincides with the entering into a legally binding agreement and it is not unreasonable to expect ultimate collection and no significant uncertainty exists regarding the amount of consideration. However, if at the time of transfer substantial acts are yet to be performed under the contract, revenue is recognised on the basis of percentage completion method, measured on the basis of percentage of actual cost incurred including proportionate land cost bears to the total estimated cost of the project under execution. Revenue comprises the aggregate amount of sale price as per the terms of the agreement entered into with the customers. The recognition is subject to reaching 25% of physical progress measured in terms of estimated cost and upon compliance of other conditions stipulated in the Guidance note on Accounting for Real estate transactions (Ind AS compliant companies) issued by the ICAI. The estimate of cost and saleable areas is reviewed periodically by the management and any effect of changes in estimates is recognised in the period of changes. Further, on periodical review if any project is expected to incur loss, the entire loss is recognised immediately. Cost in relation to the above includes cost of land, development cost, project over heads, borrowing cost and all cost incurred for bringing the property to marketable condition or its intended use.

Sale of bulk water: The income receivable from Chennai Metropolitan Water Supply and Sewerage Board (CMWSSB) mainly comprises Water Capacity Charges (WCC) and water variable Charges (WVC) provided for in the books on accrual basis.

3.7 Joint Arrangements

Joint Arrangement is classified as either Joint Operation or Joint Venture. The classification depends on the contractual rights and obligations of each investor rather than legal structure of the Joint Arrangement and assessment of other facts and circumstances when the terms of contractual arrangement do not specify that parties have rights to the assets, and obligations for the liabilities, relating to the arrangement. In work sharing joint arrangements, revenue, expense, assets & liabilities are accounted for in the Group's books to the extent work is executed by the Group.

A joint operation is a joint arrangement whereby the parties that joint control of the arrangement have right to the assets and obligation for the liabilities relating to the joint arrangement. Joint control is the contractually agreed sharing of the control of the joint arrangement, which exist when decisions about the relevant activities require unanimous consent of the parties sharing control.

A joint venture is a joint arrangement whereby the contractual arrangement provides the parties to the arrangement with rights to the net assets of the arrangement (i.e. it is the separate vehicle, not the parties, that has rights to the assets, and obligations for the liabilities relating to the arrangement). When the Group participates in, but does not have joint control of, or does not have significant influence over, a joint arrangement/venture it accounts for its interest in a joint venture in accordance with IND AS 109 Financial Instruments.

3.8 Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. Revenue and expenses directly attributable to segments are reported under each reportable segment. All other expenses which are not attributable or allocable to segments are disclosed as unallocable expenses. Assets and liabilities that are directly attributable or allocable to segments are disclosed under each reportable segment and all other assets and liabilities are disclosed as unallocable.

3.9 Foreign Currencies

Functional currency: The functional currency of the Group is the Indian rupee.

Transactions and translations: Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign-currency-denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

3.10 Property, plant and equipment

Property, plant and equipment (PPE) are initially recognised at cost. The initial cost of PPE comprises its purchase price, including non-refundable duties and taxes net of any trade discounts and rebates. The cost of PPE includes interest on borrowings (borrowing cost) directly attributable to acquisition, construction or production of qualifying assets subsequent to initial recognition, PPE are stated at cost less accumulated depreciation (other than freehold land, which are stated at cost) and impairment losses, if any.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and useful lives.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and capital work in progress) less their residual values over the useful lives, using the straight- line method ("SLM") in the manner prescribed in schedule II to the Act except for the following assets which are depreciated based on useful life determined by the Company:

Steel Shuttering	10 years
Wood Shuttering	3 years
Pucca Sheds	3 years

Land acquired for quarrying are amortized over the period of the respective project.

Management believes based on a technical evaluation (which is based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.) that the useful lives of the assets as considered by the Company reflect the periods over which these assets are expected to be used.

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The residual values, useful life and depreciation method are reviewed at each financial year-end to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on disposal or retirement of an item of property, plant and equipment is determined as the difference between sales proceeds and the carrying amount of the asset and is recognised in profit or loss. Fully depreciated assets still in use are retained in the consolidated financial statements.

3.11 Capital work-in-progress and intangible assets under development

Capital work-in-progress/intangible assets under development are carried at cost, comprising direct cost, related incidental expenses and attributable borrowing cost.

3.12 Intangible assets

Intangible assets are measured on initial recognition at cost and subsequently are carried at cost less accumulated amortisation and accumulated impairment losses, if any.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses on derecognition are determined by comparing proceeds with carrying amount. These are included in profit or loss within other gains/(losses).

The Group amortizes intangible assets with a finite useful life using the straight-line method over the useful lives determined by the terms of the agreement /contract. The estimated useful life is reviewed annually by the management. Technical know-how is amortized over a period of five years in equal instalments.

The Group has followed revenue based amortisation for intangible assets which are recognized under service concession arrangements for toll road projects, by taking proportionate of actual revenue earned for a year over total projected revenue from project to cost of intangible assets i.e. proportionate of actual revenue earned for the year over total projected revenue from intangible assets expected to be earned over the balance concession period as estimated by the management. Total projected revenue shall be reviewed at the end of each financial year and the total projected revenue shall be adjusted to reflect any changes in the estimates which lead to actual collection at the end of the concession.

3.13 Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Group, is classified as investment property. Investment properties are measured initially at cost, including transaction costs and where applicable borrowing costs less depreciation and impairment, if any. Subsequently investment property is measured at its cost, including related transaction costs in accordance with the Ind AS16's requirement for cost model.

3.14 Investment in subsidiaries and joint ventures

Investments in subsidiaries and joint venture are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments, the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of Profit and Loss.

3.15 Income tax

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred taxes are recognised in Statement of Profit and Loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

Current tax: Current tax is measured at the amount of tax expected to be payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961. Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle the asset and the liability on a net basis.

Deferred tax: Deferred income tax is recognised using the Balance Sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and

liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred tax assets are recognised only to the extent it is probable that either future taxable profits or reversal of deferred tax liabilities will be available, against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised. The carrying amount of a deferred tax asset is reviewed at the end of each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

3.16 Leases

Leases are classified as finance leases whenever the terms of lease transfers substantially all the risks and rewards of ownership to the lessee. Leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases.

Operating Lease: Operating lease payments are recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term except where another systematic basis is more representative of the time pattern in which economic benefits from leased assets are consumed. The aggregate benefit of incentives (excluding in inflationary increases where rentals are structured solely to increase in line with the expected general inflation to compensate for the lessor's inflationary cost increases, such increases are recognised in the year in which the benefits accrue) provided by the lessor is recognized as a reduction of rental expense over the lease term on a straight-line basis.

Finance Lease: Assets held under finance leases are initially recognized as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the Balance Sheet as a finance lease obligation. Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, where shorter, the term of the relevant lease. Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognized immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Group's general policy on borrowing costs. Contingent rentals are recognized as expenses in the periods in which they are incurred.

3.17 Impairment of assets

Financial assets: The Group assesses on a forward-looking basis the expected credit losses associated with its financial assets. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade receivables only, the Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

PPE and intangibles assets: Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash-generating unit (CGU) to which the asset belongs. If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the Statement of Profit and Loss.

3.18 Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

3.19 Provisions and Contingent Liabilities:

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and

a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date.

If the effect of the time value of money is material, provisions are discounted to reflect its present value using a current pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

3.20 Inventories

The stock of construction material, stores and spares are valued at lower of cost on FIFO basis and net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes all charges in bringing the goods to their present location and condition, including octroi and other levies, transit insurance and receiving charges. Work-in-progress and finished goods include appropriate proportion of overheads and, where applicable, excise duty. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

Inventory of manufactured goods and raw materials are valued at lower of cost and net realisable value. Cost of manufactured goods includes related overheads and excise duty paid/payable on such goods.

Residential Properties includes cost incurred towards development of such properties.

Plots stock represents cost of freehold land and land development rights segregated as plot for the purpose of development of township.

Freehold land purchased for the purpose of real estate development is considered as inventory.

Work-in-progress represents cost incurred in respect of unsold area of the real estate development projects or cost incurred on projects where the revenue is yet to be recognized.

Development rights for land represents development rights of land acquired from group companies and others as per the development agreements entered with them.

Direct expenditure relating to construction activity is inventorised. Indirect expenditure (including borrowing costs) during the construction period is inventorised to the extent the expenditure is related to construction or is incidental thereto. Other indirect expenditure (including borrowing costs) incurred during the construction period which is neither related to the construction activity nor is incidental thereto is charged to the Statement of Profit and Loss. Cost incurred/items purchased specifically for projects are taken as consumed as and when incurred/received.

3.21 Exceptional items

Items of income or expense from ordinary activities which are non-recurring and are of such size, nature or incidence that their separate disclosure is considered necessary to explain the performance of the Group are disclosed as Exceptional items in the Statement of Profit & Loss.

3.22 Non-derivative financial instruments

Financial assets and liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

a. Financial assets

Cash and cash equivalents: The Group considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks, which are unrestricted for withdrawal and usage.

Trade Receivables and Loans: Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost, using the effective interest rate (EIR) method net of any expected credit losses. The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument.

Debt Instruments: Debt instruments are initially measured at amortised cost, fair value through other comprehensive income ('FVOCI') or fair value through profit or loss ('FVTPL') till derecognition on the basis of (i) the entity's business model for managing the financial assets and (ii) the contractual cash flow characteristics of the financial asset.

Equity Instruments: All investments in equity instruments classified under financial assets are initially measured at fair value, the Group may, on initial recognition, irrevocably elect to measure the same either at FVOCI or FVTPL. The Group makes such election on an instrument-by-instrument basis.

b. Financial assets – Subsequent measurement

Financial assets at amortised cost: Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income (FVTOCI): Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows that give rise on specified dates to solely payments of principal and interest on the principal amount outstanding and by selling financial assets.

Financial assets at fair value through profit or loss (FVTPL): Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in profit or loss.

c. Financial liabilities

Loans and borrowings: After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost on accrual basis.

Financial guarantee contracts: Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognized less cumulative amortization.

d. Financial liabilities - Subsequent measurement

Financial liabilities are measured at amortised cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, carrying amounts approximate the fair value due to the short maturity of these instruments.

e. Derecognition

The Group de-recognizes a financial assets when the contractual rights to the cash flows from the financial asset expires or it transfers the financial assets and the transfer qualifies for derecognition under Indian Accounting Standard 109 "Financial Instruments". A financial liability (or a part of financial liability) is de-recognised from the Group's balance sheet when the obligation specified in the contract is discharged or cancelled or expires.

f. Offsetting of financial instruments

Financial assets and financial liabilities are offsetted and the net amount is reported in Consolidated financial statements if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

3.23 Borrowing costs

General and specific borrowing costs (including exchange differences arising from foreign currency borrowing to the extent that they are regarded as an adjustment to interest cost) that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are expensed in the period in which they are incurred.

3.24 Employee Benefits

Employee benefits consist of contribution to employees state insurance, provident fund, gratuity fund and compensated absences.

Defined Contribution plans

Contributions to defined contribution schemes such as employees' state insurance, labour welfare fund, employee pension scheme etc. are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees. Group's provident fund contribution is made to a government administered fund and charged as an expense to the Statement of Profit and Loss. The above benefits are classified as Defined Contribution Schemes as the Group has no further defined obligations beyond the monthly contributions.

Defined benefit plans:

The Group operates defined benefit plan in the form of gratuity. The liability or asset recognised in the balance sheet in respect of its defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method. The present value of the said obligation is determined by discounting the estimated future cash out flows, using market yields of government bonds that have tenure approximating the tenures of the related liability.

The interest expense are calculated by applying the discount rate to the net defined benefit liability or asset. The net interest expense on the net defined benefit liability or asset is recognised in the Statement of Profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the Statement of Changes in Equity and in the Balance Sheet. Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Compensated Absences

The employees are entitled to accumulate leave subject to certain limits, for future encashment and availment, as per the policy of the Group. The liability towards such unutilized leave as at the yearend is determined based on independent actuarial valuation and recognized in the Statement of Profit and Loss.

The classification of the Group's net obligation into current and non-current is as per the actuarial valuation report.

3.25 Earnings per share (EPS)

Basic EPS is computed by dividing the profit or loss attributable to the equity shareholders of the Company by the weighted average number of Ordinary shares outstanding during the year. Diluted EPS is computed by adjusting the profit or loss attributable to the ordinary equity shareholders and the weighted average number of ordinary equity shares, for the effects of all dilutive potential Ordinary shares.

3.26 Government Grant

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions. Government grants relating to income are deferred and recognised in the profit and loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income. Government grants relating to the purchase of property, plant and equipment are included in noncurrent liabilities as deferred income and are credited to profit or loss on a straight line basis over the expected lives of the related assets and presented with other income.

Impact of pending legal cases

- IV.** The Group is party to several cases with contractee/clients as well as vendors/sub-contractors, pending before various forums /courts/ arbitration proceedings. It is not possible to make a fair assessment of the likely financial impact of these pending disputes/litigations until the cases are decided by the appropriate authorities.
- V.** The Group is also liable jointly and severally in respect of joint venture projects and liquidated damages in completion of projects.
- b. Further the holding Company has provided corporate guarantees to the lenders of certain subsidiary companies and some of the subsidiary companies have provided corporate guarantee to the CDR Lenders, Monitoring Institutions and security trustee of the holding Company pursuant to CDR Scheme. The management does not expect any additional liability at Group level over and above the stated liability in the consolidated financial statements in respect of such corporate guarantees.
- c. In respect of Jalandhar Amritsar Tollways Limited, Company required to the renewal of wearing surface of the road pavement one in 5 year in terms of clause 3.3.7 of Schedule L of Concession Agreement in addition to regular maintenance of the road. Resurfacing of road was due in April 2015 for first 5 years. However, management was unable to start the resurfacing of road due to funding issue. NHAI had issued a penalty notices on company on different dates for delay in laying of Overlay as per clause 18.13 of concession agreement amounting of ₹ 468.80 million. However the total liability comes ₹ 531.33 million till March 31, 2018. The company has not provided the liability of ₹ 531.33 million in books of Accounts ended March 31, 2018 and treated the demand as Contingent liability. Penalty on delay in laying of Overlay as per clause 18.13 of concession agreement is of ₹ 531.33 million (Previous year – ₹ NIL).
- d. In respect of Kumarapalayam Tollways Limited, Company required to the renewal of wearing surface of the road pavement one in 5 year in terms of clause 2.6.1 of Schedule L of Concession Agreement in addition to regular maintenance of the road. Resurfacing of road was due in Aug 2014 for first 5 years. However management was unable to start the resurfacing of road due to funding issue. NHAI had issued a penalty notice on October 30, 2017 on company for delay in laying of Overlay as per clause 18.13 of concession agreement amounting of ₹ 462.00 milion However the penalty liability till March 31, 2018 is ₹ 571.10 million. The company had requested to NHAI to waive the penalty given the good pavement quality , good experience of user and funding issues faced by the company. The company is expecting the favourable decision on request and not provided the liability of ₹ 571.11 million in books of Accounts ended March 31, 2018 and treated as Contingent liability. Penalty on delay in laying of Overlay as per clause 18.13 of concession agreement is of ₹ 571.10 million (Previous year – ₹ NIL).
- e. In respect of Salem Tollways Limited, Company required to the renewal of wearing surface of the road pavement one in 5 year in terms of Schedule L of Concession Agreement in addition to regular maintenance of the road. Resurfacing of road was due in July 2015 for first 5 year. However management was unable to start the resurfacing of road due to funding issue. NHAI had issued a penalty notice on September 15, 2015 on

company for delay in laying of Overlay as per clause 18 of concession agreement amounting of ₹ 492.40 million. The company had requested to NHAI to waive the penalty given the good pavement quality , good experience of user and funding issues faced by the company. The company is expecting the favourable decision on request and not provided the liability of ₹ 492.40 million in books of Accounts ended March 31, 2018 and treated as Contingent liability. Penalty on delay in laying of Overlay as per clause 18 of concession agreement is of ₹ 492.40 million (Previous year – ₹ NIL).

- f. In respect of Rihim Developers Private Limited, during the year 2006, Company (erstwhile IVRCL Assets & Holdings Limited) had entered into Joint Development Agreements (JDAs) with various individual plot owners to jointly develop a property situated at “Cyber Enclave”, Hi-tech City, Hyderabad. As per JDAs, the Company was required to amalgamate all the plots pertaining to “Cyber Enclave” and complete the development as per specified plan within a period of thirty months from the date of respective JDAs. As per terms and conditions of the agreement, all the plot owners have an obligation to enter into JDA to facilitate amalgamation of plots without which development cannot be taken up. In case of delay in completion of the project by the Company, it would indemnify the loss occurring to the individual land owners as per agreed terms for the delayed period. As at March 31, 2014, certain plot owners of Cyber Enclave have still not entered into the JDA with the Company. Accordingly, development of the property could not be taken up by the Company and necessary permissions and clearances from various authorities are pending.

The Company believes that the plot owners would get the right to claim compensation for delayed period only when the delay is caused by the Company. Since the Company has performed all the obligations on its part, payment of compensation to land owners for delay in the project is not probable. The liability, if any, that may arise on account of delay in development of the above property is not presently ascertainable.

g. Commitments

S. No.	Particulars	As at March 31, 2018	As at March 31, 2017

2	Other commitments (Commitments towards investment in subsidiary)	Nil	Nil

43. As more fully described in Note 44 below, as per section 134 of the Companies Act, 2013, the Consolidated financial statements of a Company are required to be authenticated by the Chairperson of the Board of Directors, where authorized by the Board or at least two Directors, of which one shall be the Managing Director or the CEO (being a Director), the CFO and the Company Secretary where they are appointed. In view of the ongoing CIRP , powers of the board of directors have been suspended and these powers are, in terms of the code, now vested with Mr. Sutanu Sinha, as Interim Resolution Professional (IRP) to carry out the functions of the Company in his capacity as the IRP from February 23, 2018. Accordingly, consolidated Financial statements of the Company for the year ended March 31, 2018 were taken on record and authorized for issue by Resolution Professional (RP) on June 29, 2018.

44. The Lenders of the holding company had in earlier year approved a Corporate Debt Restructuring Scheme (CDR) with certain reliefs in relation to repayment timelines of loans and accumulated unpaid interest with certain conditions w.e.f. June 30, 2014. The efforts to raise additional funds, however, could not materialise and in the earlier year, the Joint Lenders have decided to adopt Strategic Debt Restructuring (SDR) in their meeting held on November 26, 2015, involving conversion of part of their debt into equity share capital to facilitate majority shareholding (i.e more than 51%) by the Joint Lenders Forum (JLF).

During the year, the stipulated time line has ended on May 25, 2017 and no Investor has come forward with a binding offer to acquire the lenders stake. The company has been treated as a case of failed CDR and SDR and lenders have exercised rights available to them on such failure of CDR/SDR including withdrawal / reversals of waivers / reliefs earlier granted to them w.e.f November 30, 2013.

During the year, a lender has filed a petition against the holding Company for initiation of CIRP that has been admitted by the Hon’ble National Company Law Tribunal, Hyderabad Bench (“NCLT”) vide its order dated February 23, 2018 declaring moratorium inter-alia against any recovery proceedings/winding up proceedings against the holding company. The order of moratorium shall have effect from February 23, 2018 in accordance with section 14 (1) of the Insolvency and bankruptcy Code, 2016 (“the Code”).

Further, pursuant to the order of NCLT, a public announcement of CIRP was made on March 03, 2018 and a Committee of Creditors (COC) was formed pursuant to the provisions of the code and COC held their first meeting on March 29, 2018 and inter alia confirmed Interim Resolution Professional as Resolution professional (RP) for the Company. Hence, term loan including Working Capital Term Loan, Funded Interest Term Loan, Priority Debts etc has been classified as current borrowings as repayable on demand.

45. During the year, the holding company has incurred a net loss of ₹ 19,910.93 Million resulting in to accumulated losses of ₹ 41,762.43 Million as at March 31, 2018 and erosion of its Net worth. The holding company has obligations towards fund based borrowings aggregating to ₹ 77,577.28 Million and non fund based exposure aggregating to ₹ 12,831.73 Million, subject to reconciliation/verification as stated in Note 49 below, that have been demanded/recalled by the financial creditors pursuant to CIRP, obligations pertaining to operations including unpaid creditors and statutory dues as at March 31, 2018. The Company's ability to continue as going concern is dependent upon many factors including continued support from the financial creditors, operational creditors and submission of a viable revival plan by the prospective investor/bidder. In the opinion of the management, resolution and revival of the company is possible in foreseeable future, accordingly, in view of ongoing CIRP, above results have been prepared on the basis that the holding company is a Going Concern.
46. The holding company had recognized deferred tax assets on account of carried forward unused tax losses and other taxable temporary differences aggregating to ₹ 9,570.59 Million (₹ 9,570.59 Million as at March 31, 2017). Based on unexecuted orders on hand and expected future orders, the Management of the holding company is confident that sufficient future taxable income will be available against which such deferred tax assets will be realised.
47. The holding company has certain trade receivables, unbilled revenue, security deposit, withheld, claims of indirect taxes and other deposits including bank guarantee encashed by the customers aggregating to ₹ 19,682.35 Million (₹ 18,682.13 Million as at March 31, 2017) which are subject matters of various disputes / arbitration proceedings / negotiations with the contractee/clients due to termination / fore closure of contracts and other disputes. The management of the holding company is confident of positive outcome of litigations / resolutions of disputes and recovering the aforesaid dues.
48. The holding company has outstanding advances of ₹ 941.88 Million (₹ 4,322.33 Million as at March 31, 2017) given to associates, net receivable against development rights, various sub-contractors, vendors and other parties that are outstanding for long period. The management of the holding company is at various stages of negotiation/communication/ arbitration with respective contractee/clients/ sub-contractors/vendors to recover the dues and cost incurred by the holding company. Accordingly, no provision has been considered necessary by the management in respect of impairment in the value of advances.
49. Pursuant to the commencement of Corporate Insolvency Resolution Process of the Company (CIRP) under Insolvency and Bankruptcy Code, 2016 (IBC), there are various claims submitted by the operational creditors, the financial creditors, employee and other creditors against the Company including the claim on Company's subsidiaries. Some of these claims are under further verification/validation and the same may be updated as per any additional information which may be received in future.
50. Confirmation of balances could not be obtained as at March 31, 2018 for banks balances aggregating to ₹ 24.84 Million, bank borrowings and for various trade receivables, trade payables, though, the management has requested for the confirmation of balances. Management believes that no material adjustments would be required in books of account upon receipt of these confirmations.
51. Physical verification for fixed assets aggregating to ₹ 169.12 Million (WDV as at March 31, 2018) and inventory aggregating to ₹ 41.23 Million could not be carried out at certain locations including project site that are terminated/ foreclosed/ having slow progress. Management believe that no item of fixed assets and inventory has a net realizable value in the ordinary course of business which is less than the amount at which it is included in the fixed assets and inventories. Accordingly, no provision is required in respect of such fixed assets and inventories.
52. The holding company has various input credits and balances with various statutory authorities pertaining to service tax, VAT, sales tax etc aggregating to ₹ 2,003.47 Million. The recovery of these amounts is subject to reconciliation, filing of returns and admission by respective statutory authorities. No adjustments has been made in the books of accounts in respect of such amounts.
53. During the year, the holding company has received a Show Cause Notice U/s 279 (1) of the IT Act 1961 for initiation of prosecution proceedings U/s 276 (B) of the IT Act 1961 for failure to deposit the deducted Tax at Source within due date in Central Government Account for financial year 2016-17 & 2017-18 for the amount of ₹ 103.40 Million and ₹ 189.12 Million respectively.
- In respect of the above, IT department has also sent notices U/s 226 (3) of the IT Act, 1961 to certain banks and customers of the company demanding the recovery of aforesaid arrears.
- The Resolution Professional has communicated to the IT department about the ongoing CIRP and requested the IT department to withdraw the aforesaid notice and not to proceed with any further actions against the company in this regard.
54. During the previous year, the management had expressed its intention to sell three BOT Projects for which definitive agreements for sale were signed with the buyer and accordingly, these projects had been classified as "Assets held for sales". Pursuant to the cancellation of the said agreements during the year these projects assets have been classified as Non-current Investment.

In respect of the above, the Employees' Provident Fund Organisation has also sent notice U/s 8f of the Employees' Provident Funds and Miscellaneous Provisions Act, 1952 to a bank demanding the recovery of the aforesaid arrears.

The holding company has filed an appeal U/s 7-I of the Employees' Provident Funds and Miscellaneous Provisions Act, 1952 with Employees' Provident Fund Appellate Tribunal, Bangalore Bench regarding the damages amounting to ₹ 61.27 Million and the matter is presently sub-judice.

55. During the previous year, the management had expressed its intention to sell three BOT Projects for which definitive agreements for sale were signed with the buyer and accordingly, these projects had been classified as "Assets held for sales". Pursuant to the cancellation of the said agreements during the year these projects assets have been classified as Non-current Investment.
56. Other expenses for the year ended on March 31, 2018 includes provision for doubtful trade receivables aggregating to ₹ 1,221.20 Million (for the year ended March 31, 2017 is ₹ 2,978.28 Million).
57. Exceptional items represent interest/penal interest charged and benefits withdrawn by the lenders upto March 31, 2017 that were extended pursuant to CDR/SDR scheme from the cut off date (i.e. November 30, 2013).

58. Specific notes related with Subsidiary Companies:

a. SPB Developers Private Limited

1. During the earlier year, the company has sent notices for intention of termination and termination notice for the project work pursuant to clause 37.2.2 of concession agreement due to prolonged delays in curing the defaults and indecisiveness on compensation proposal by the Public Works Department of government of Maharashtra (PWD) for violation of clause 10.3.2, 35.2 & 25.2.3 of the concession agreement. PWD has also issued a notice of intention of termination of the Project Work in terms of Clause 37.1.1 of the Concession Agreement. Subsequently, during the year, an arbitration process has been initiated between the Company (the Claimant) and PWD (the Respondent). Under the given circumstances, the Company may not be able to realise its assets and discharge its liabilities in the normal course of business. These facts along with other matters as stated in note 58 (a) (2) and 27.3 below indicate that a material uncertainty exists that may cast significant doubt on the company's ability to continue as a Going Concern. However, the financial statements have been prepared by the Company on the going concern basis as the management is confident that the compensation claim will be awarded in favour of the Company in the ongoing arbitration process. The company is in process of submission of its claim before the arbitrators. Hence, the consolidated financial statement does not include any adjustment in this respect.
2. The implementation of the project was delayed due to delay in handing over of land, handing over Right of Way and delay in utility shifting which was beyond the control of the company. Further, the Company has also faced liquidity challenges during the year. This has resulted into realignment and rescheduling of work in earlier years. The management is confident of obtaining necessary land, ROW etc. Hence, the management has capitalized interest expenses amounting to ₹ 273.71 Million (Previous Year- ₹ 251.49 Million) for the period April 01, 2017 to March 31, 2018 towards cost of the project.

b. IVRCL TLT Private Limited

3. Inventories of the Company include non-moving trade stock of ₹ 18.21 Million being held by the Company since long time. Management is taking necessary steps for disposing off non-moving items in the market. In view of above, in the opinion of the management, no adjustment is required in financial statements in this respect.
4. Trade Receivables include amount of ₹ 1.91 Million due from HDO Technologiess Limited (Related Party) respectively outstanding since long periods. The Management is hopeful of recovery of these outstanding and accordingly, considered these outstanding as good and recoverable.
5. The accumulated losses of the Company as at March 31, 2018 amounting to ₹ 179.38 Million have exceeded its net worth. Further, the Company's current liabilities exceed current assets. This indicates the existence of a material uncertainty that may cast significant doubt on the Company's ability to continue as going concern. However, considering the present status of revenue being earned by the Company, the management is hopeful in future the Company will be able to discharge its liabilities in the normal course of business on regular basis. Hence, the consolidated financial statements have been prepared on going concern basis and do not include any adjustment in this respect.
6. The Company has extended corporate guarantee as per Corporate Debt Restructuring(CDR) condition in favor of lenders of the holding Company (IVRCL Limited) who is incurring losses and Corporate Debt Restructuring Empowered

5. Capital approach is followed for amortization of capital grant i.e. reduced from total capital expenses to arrive carriage ways as per IND AS 12.

e. IVR Hotels and Resorts Limited

1. The Company has incurred an aggregate cost of ₹ 3,892.91 Million as at March 31, 2018 (March 31, 2017: ₹ 3,902.43 Million), on acquisition of certain land parcels and project expenditure incurred on some of these land parcels. The Company has acquired various land parcels and is into initial stage of project implementation. As per Company's business plan, the projects will have multiple properties consisting of integrated townships, golf course, golf club, service apartments and mega malls which will be classified under Fixed Assets, Investment Properties and Inventories, as the case may be, based on ultimate end use pattern as per final business plan of the Company. Pending such reclassification, the cost incurred on development of projects in respect of balance land parcels is included under the head 'Inventory'.

The said land parcels / projects are being carried in the books at cost, which in the opinion of the Management is lower than the Net Realisable Value / Value in use, based on the assessment carried out by the Management. Accordingly, no adjustment has been made to the carrying value of these land parcels / projects.

2. The land held by the company and development rights received from various land companies has been mortgaged to the bankers of the Company and lenders of IVRCL Limited (holding Company) for securing various credit facilities, to the extent of 260 and 152 acres respectively. During the year, the Honourable National Company Law Tribunal (NCLT), Hyderabad Bench admitted an Insolvency and Bankruptcy petition filed by a financial creditor against IVRCL Limited,

(the Holding Company) and appointed a Resolution Professional in terms of the Insolvency and Bankruptcy Code, 2016 to carry out the functions of the Company.

In view of the above, the holding company's ability to continue as a going concern is dependent on many factors including submission of a viable revival plan by the prospective investors/bidders. In the opinion of the parent company management, resolution and revival of the company is possible in the foreseeable future under the Corporate Insolvency Resolution Process (CIRP).

3. The customers/land vendors/facilitators/others have initiated legal action for not fulfilling the contractual obligations. The Company is taking steps to defend such actions and the financial impact, if any, is presently not ascertainable.

61. Financial Instruments

61.1 Capital risk management

The Group manages its capital to ensure that the Group will be able to continue as going concern while maximising the return to stakeholders through optimisation of debt and equity balance. The Group is not subject to any externally imposed capital requirements.

The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants.

61.2 Financial risk management

The Group's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance and support the Group's operations. The Group's principal financial assets comprise investments, cash and bank balance, trade and other receivables.

The Group is exposed to various financial risks such as market risk, credit risk and liquidity risk. The financial risks are identified, measured and managed in accordance with the Group's policies and risk objectives.

a. Market risk

The Group's activities expose it primarily to the financial risk of changes in foreign currency exchange rates and changes in interest rates. There have been no changes to the Group's exposure to market risk or the manner in which it manages and measures the risk in recent past.

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: interest rate risk and currency risk. Financial instruments affected by market risk include borrowings and bank deposits.

i. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates is limited as the Group's borrowing bear fixed interest rate.

ii. Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign

exchange rates relates primarily to the Company's borrowings. The Group's foreign currency risks are identified, measured and managed at periodic intervals in accordance with the Company's policies. For details of unhedged foreign currency refer note 59(a)(13) and note 67.

b. Credit risk

Credit risk is the risk that counterparty will default on its contractual obligations resulting in financial loss to the company. The Group has adopted a policy of only dealing with creditworthy customers.

Credit risk on trade receivables and unbilled work-in-progress is limited as the customers of the Company mainly consists of the government promoted entities having a strong credit worthiness. For other customers, the Group uses a provision matrix to compute the expected credit loss allowance for trade receivables and unbilled work-in-progress. The provision matrix takes into account available external and internal credit risk factors such as credit ratings from credit rating agencies, financial condition, ageing of accounts receivable and the Group's historical experience for customers.

At March 31, 2018, the company did not consider there to be any significant concentration of credit risk, which had not been adequately provided for. The carrying amount of the financial assets recorded in the financial statements, grossed up for any allowances for losses, represents the maximum exposure to credit risk.

c. Liquidity risk

The Group manages liquidity risk by maintaining adequate reserves and banking facilities, by continuously monitoring forecast and actual cash flows and by matching the maturity profiles of financial assets and liabilities for the Company. The Company has established an appropriate liquidity risk management framework for it's short-term, medium term and long-term funding requirement.

The table below summarizes the maturity profile of the Group's financial assets and financial liabilities based on contractual undiscounted payments:

Particulars	Less than 1year	1-5 years	> 5 years	Total

Other financial liabilities	3,217.95	-	1,318.52	4,536.47

61.3 Fair value measurements

The fair value of the financial assets are included at amounts at which the instruments could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair value:

- (a) Fair value of cash and short term deposits, trade and other short term receivables, trade payables, other current liabilities, approximate their carrying amounts largely due to the short-term maturities of these instruments.
- (b) Financial instruments with fixed and variable interest rates are evaluated by the Company based on parameters such as interest rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken to account for the expected losses of these receivables.
